

ENGINEER'S REPORT FALL/WINTER 2011

Eastland Road Project

The Eastland Road / Sheldon Road intersection was opened to traffic in early November which completed the more than two year roadway/bridge Project administered by the Cuyahoga County Department of Public Works.

Brookpark Road Resurfacing

The western half of the project will finish-up this paving season. Work will resume in the spring to complete from West 161 Street to West 130th Street.

Heatherwood Reconstruction Project

Mainline paving and driveway aprons were completed in late October.

2011 Asphalt Resurfacing Project

Included work on Holland from W130th to Middlebrook, Gilmore, Renee, Lee and Kolthoff. These streets are scheduled for completion prior to the end of the 2011 paving season.

Holland Road/West 150th Full Depth Concrete Repairs Project

Full depth concrete pavement repairs on Holland Road from Adair to Smith and on West 150th Street were completed in late October.

Sheldon Road Water Main Replacement

Work started in late October and will continue through early 2012. The project includes replacing the existing 12" water main on Sheldon from just east of I-71 to Smith Road.
