City of Brook Park

Finance Department

Gregory M. Cingle
Finance Director

Martin S. Healy
Assistant Finance Director

June 24, 2022

To the Honorable Mayor and Members of City Council,
And Citizens of Brook Park, Ohio:

State law requires that all general-purpose local governments publish within six months of the close of each fiscal year a complete set of financial statements presented in conformity with Generally Accepted Accounting Principles (GAAP) and audited in accordance with Generally Accepted Auditing Standards (GAAS) by a firm of licensed certified public accountants. Pursuant to that requirement, we hereby issue the Annual Comprehensive Financial Report (ACFR) of the city of Brook Park (City) for the fiscal year ended December 31, 2021.

This report consists of management's representations concerning the finances of the City. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the City has established a comprehensive internal control framework that is designed to both compile sufficient reliable information for the preparation of the City's financial statements in conformity with GAAP and protect the government's assets from loss, theft or misuse. Since the cost of internal controls should not outweigh their benefits, the City's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assure that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The City's financial statements have been audited by James G. Zupka, C.P.A., Inc. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City for the fiscal year ended December 31, 2021, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion on the financial statements of the City for the fiscal year ended December 31, 2021, and that the financial statements are fairly presented in conformity with GAAP. The report of the independent auditor is presented as the first component of the financial section of this report.

The requirements of GAAP necessitate that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This Letter of Transmittal is designed to complement the City's MD&A and should be read in conjunction with it. The MD&A can be found immediately following the report of the independent auditor

Annual Comprehensive Financial Report For the Year Ended December 31, 2021

Table of Contents

Page

Profile of the Government

The City, incorporated in 1967, is located in the Southwest portion of Cuyahoga County, 13 miles from Downtown Cleveland, with the cities of Parma to the east, Berea to the west and Middleburg Heights to the south. Brook Park is an easily accessible suburban community that abuts Cleveland Hopkins Airport on the Northwest boundary and has ready access to Interstates 71 and 480 and the Ohio Turnpike. With an excellent combination of residential, commercial and industrial areas that provide tax support, the City is able to finance the building of excellent administrative, recreational and service facilities as well as provide a wide variety of municipal services, such as police and fire services, street services, sewer services and recreation services.

The City operates under a mayor-council form of government. The mayor, designated by the charter as the chief executive officer of the City, is elected to serve a four-year term. The mayor has the power to appoint, promote, discipline, transfer, reduce or remove any employee of the City, except those elected, those who work for an elected official and those whose terms of office are set by the charter. Legislative authority is vested in an eight-member council. The council consists of a president, three council members elected at-large and four council members elected by ward. Council members are elected to serve a two-year term. Each member of council has a right to vote, except for the president, who may vote only in the event of a tie.

The mayor is entitled to a seat on council but has no voting rights. The mayor may veto any legislation passed by council. A veto may be overridden by a two-thirds vote of all members of council. The council fixes compensation of City officials and employees and enacts ordinances and resolutions relating to City services, tax levies, appropriations, indebtedness, the licensing of regulated businesses and trades and other municipal purposes.

Other elected officials include the finance director and law director, each of whom serve four-year terms.

Detailed provisions for the City's budget, tax levies and appropriations are set forth in the Ohio Revised Code and the charter. With the assistance of the finance director, the mayor is required to submit to council an estimate of the revenues and expenditures of the City for the succeeding fiscal year. The mayor submits to council an appropriation ordinance budget for the next succeeding fiscal year based on the annual estimate. Council is required to adopt said ordinance in its original form or with those revisions as it may find proper within 90 days of the beginning of the fiscal year.

The City maintains budgetary control on a non-GAAP basis by fund and within each fund by department at major object levels, which include personal services, travel and education, contractual services, supplies and materials, other expenditures, capital outlay, debt service and transfers. For management purposes, the major object level is further defined with budgeted amounts not to exceed the aggregate appropriated by council.

Budgetary control is maintained by an encumbrance of purchase commitment amounts prior to the release of purchase orders to vendors. Requisitions for the expenditure of monies are submitted to the mayor for approval and preparation of a purchase order. The purchase order is forwarded to the finance director's office for certification of the availability of funds. Once certified, the estimated expenditure is encumbered against the available appropriation. Unencumbered appropriations lapse at the end of each year. The City's accounting system provides interim financial reports that detail year-to-date expenditures plus encumbrances versus the original appropriations plus or minus any additional approved appropriations. The report permits the officials of the City to ascertain the status of a department's appropriations at any time during the year.

Factors Affecting Financial Condition

I. Economic Conditions and Outlook. In general, the U.S. economic growth continues at a moderate pace. Some of the factors are as follows:

- The 2021 calendar year realized employment gains of 6.4 million jobs, which is the biggest one-year gain on record and, on a percentage basis, the best year for job growth since 1978.
- The Federal Reserve did not adjust the federal funds rate (0.00%) in 2020.
- It was wild year in many respects, but the stock market turned in a solid performance in 2021. Except for a few brief sell-offs, the [S&P 500](#) gained 26.9%. the Dow Jones Industrial Average ([DJIA](#)) gained 18.7% and the Nasdaq Composite gained 21.4%.

II. Major/Local Economic Activity. The City continues to work to build upon its existing economic base and take advantage of our unique place as the “Gateway” to Cuyahoga County and the Region.

- The City of Brook Park remains an active member of the Aerozone Alliance (“Alliance”) and the work to leverage the assets of Cleveland Hopkins International Airport, Ohio Aerospace Alliance, and The NASA Glenn Research Center into transformational economic growth. The Alliance is currently working to develop and Master Plan for the Aerozone district.
- The City of Brook Park is actively engaged in redevelopment of the 208 acres formerly home to Ford Engine Plant 2. This site, now known as the Forward Innovation Center (“FIC”) offers very attractive multimodal access to Cleveland Hopkins International Airport, the Port of Cleveland, highways as well as rail. We are working closely with the ownership group, JobsOhio and TeamNEO to ensure the FIC is included in any business attraction leads or site selection requests. The City was successful in applying for \$10M from the Ohio Brownfield Remediation Program.
- Snow Road Activity
Snow Road, a major economic corridor through Brook Park has experienced some recent activity that will help with business retention, expansion and attraction projects.
 - After being vacant for over a decade, the former Bally’s Total Fitness is being redeveloped into “Space Shop” Self Storage. This project will help brighten the area.
 - The City completed the acquisition of the former Super 8 Motel, which had be a drain on city personnel and resources. The City is currently in the planning process to demolish the structure, opening over 3 acres of prime real estate for redevelopment located very close to the I-71/Snow Road exit.
 - After a slight pause in activity, work has begun on a planned Biggby Coffee, which will occupy the site of a former PNC Bank branch.

III. Redevelopment Planning.

- The City has taken title to two (2) former public school properties with a total of 27.72 acres and 167,895 sq. ft. of building area, that is available for purchase and development. We are exploring funding options to demolish and clear the land.
- The City continues to utilize the Master Plan that was finalized in 2012. The Master Plan assists in providing ideas for redevelopment, land use and zoning updates throughout the community.
- Brook Park currently owns 23.5 acres in the Opportunity Zone that is available for purchase and development

Cash Management Policies and Practices

Cash management is a vital component of the City's overall financial strategy. Under the direction of the finance director, the City maintains an aggressive cash management program. Major considerations are timing of cash flows necessary to pay City liabilities and available interest rates. As City funds become available, they are invested immediately in short-term certificates of deposit or other securities authorized by state statutes. Interest earnings are allocated to funds based on the requirements of the Ohio Constitution and state statutes. All deposits and investments are covered by pooled collateral that has a face value equal to at least 102 percent of deposits.

Risk Management

The City has contracted with Wichert Insurance Company to negotiate property, general liability, boiler and machinery, automobile, law enforcement, public officials and umbrella insurance for the City. Medical insurance is provided for full-time employees and their families. The plan is fully-funded and administered by a third party administrator. The state of Ohio provides workers' compensation coverage for employees of the City.

Awards and Acknowledgements

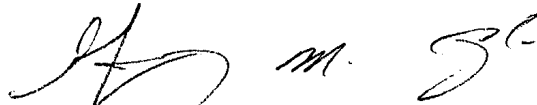

Certificate of Achievement. The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City for its CAFR for the fiscal year ended December 31, 2021. The Certificate of Achievement is a prestigious national award that recognizes conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, the City published an easily readable and efficiently organized CAFR. This report conformed to program standards and satisfied both GAAP and applicable legal requirements.

The Certificate of Achievement is valid for a period of only one year. The City has received a Certificate of Achievement for the last 30 years. We believe that our current CAFR continues to meet the requirements for the Certificate of Achievement, and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgement. The Finance Department, with the efficient and dedicated service of its entire staff, prepared this CAFR. We would like to express special appreciation to the independent accounting firm of James G. Zupka, CPA, Inc. for their assistance in preparing this report. In addition, we would like to thank the Mayor and each member of Brook Park City Council for their support, which has allowed the Finance Department to operate at the level that the residents of the City demand and deserve.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'G. M. Cingle', is positioned above the printed name.

INDEPENDENT AUDITOR'S REPORT

To the Members of City Council
City of Brook Park
Brook Park, Ohio

The Honorable Keith Faber
Auditor of State
State of Ohio

Report on the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the City of Brook Park, Cuyahoga County, Ohio, (the City) as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the City of Brook Park as of December 31, 2021, and the respective changes in financial position, and, where applicable, cash flows thereof and the budgetary comparisons for the General Fund, Economic Development Fund and American Rescue Plan Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards (Government Auditing Standards)*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Emphasis of Matter

As discussed in Note 20 to the basic financial statements, the financial impact of COVID-19 and the continuing emergency measures may impact subsequent periods of the City. Our opinion is not modified with respect to this matter.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and Schedules of Net Pension and Postemployment Benefit Liabilities and Pension and Postemployment Benefit Contributions, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining and individual nonmajor fund financial statements and schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated June 24, 2022, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

A handwritten signature in black ink that reads "James G. Zupka, CPA, Inc." The signature is written in a cursive, flowing style.

City of Brook Park, Ohio

Management's Discussion and Analysis (Unaudited)

For the Year Ended December 31, 2021

The discussion and analysis of the City of Brook Park's (the City) financial performance provides an overall review of the City's financial activities for the year ended December 31, 2021. The intent of this discussion and analysis is to look at the City's financial performance as a whole. Readers are encouraged to consider this information in conjunction with the additional information contained in the financial statements and the notes thereof.

Financial Highlights

Key financial highlights for 2021 are:

- Revenue from municipal income and other taxes totaled \$20,498,863.
- Total assets and deferred outflows of resources increased by \$1,022,198 or a 0.87 percent increase from 2020. This increase was attributed mainly to the increase in Cash and Cash Equivalents due to the City receiving American Rescues Plan Act (ARPA) funding, but not expending the money during the current year and the addition of Net OPEB Asset.
- Total net position increased by \$5,285,293 or a 9.16 percent from 2020.
- Total liabilities and deferred inflows of resources decreased by \$4,263,095. This was a 7.12 percent decrease from 2020. This is mainly attributed to a decrease of \$7,655,389 in net pension liability and net OPEB liability.
- At the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$27,981,850 an increase of \$499,220 in comparison with the prior year's amount. Approximately 28.26 percent of this total amount, or \$7,907,644, is available for spending at the government's discretion (unassigned fund balance) without externally or internally imposed constraints.
- At the end of the current fiscal year, the General Fund's unassigned fund balance was \$7,907,644 or 38.70 percent of General Fund expenditures (not including other financing uses).

Using This Annual Comprehensive Financial Report

This annual report consists of a series of financial statements and notes to those statements. These statements are prepared and organized so the reader can understand the City both financially and operationally. The statements proceed to provide an increasingly detailed look at our specific financial condition.

The *Statement of Net Position* and *Statement of Activities* provide information about the activities of the whole City, presenting both an aggregate view of the City's finances and long-term view of those assets. Major fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term and what dollars remain for future spending. The fund financial statements also look at the City's most significant funds, with all other nonmajor funds presented in total in one column.

City of Brook Park, Ohio

Management's Discussion and Analysis (Unaudited) (continued)

For the Year Ended December 31, 2021

Reporting the City of Brook Park as a Whole

Statement of Net Position and Statement of Activities

While the Annual Comprehensive Financial Report contains information about the funds used by the City to provide services to our citizens, the *Statement of Net Position* and the *Statement of Activities* provide a view of the City's monetary transactions and answer the question, "How did the City do financially during 2021?" These statements include all assets, deferred outflows of resources, liabilities, and deferred inflows of resources using the accrual basis of accounting, which is similar to the accounting method used by the private sector. This accounting method takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the City's net position and the changes in net position. The changes in net position are important because it tells the reader whether the financial position of the City has improved or diminished. When evaluating the overall position of the City, non-financial information should also be considered, such as: changes in the City's tax base, amendments to property and income tax laws, condition of capital assets, etc.

The *Statement of Net Position* and the *Statement of Activities* will include the following governmental activities: police, fire, street maintenance, parks and recreation and general administration. Income taxes, property taxes and state and federal subsidy grants finance most of these activities.

The *Statement of Net Position* and the *Statement of Activities* are divided into the following categories:

- Assets
- Deferred Outflows of Resources
- Liabilities
- Deferred Inflows of Resources
- Net Position (Assets and Deferred Outflows of Resources minus Liabilities and Deferred Inflows of Resources)
- Program Revenues and Expenses
- General Revenues
- Net Position at the Beginning and End of Year

Reporting of the Most Significant Funds of the City of Brook Park

Fund Financial Statements

The presentation of the City's major funds begins on page 19. Fund financial statements provide detailed information about the City's major funds based on the restrictions on the use of monies. The City has established many funds to account for the multitude of services, facilities and infrastructure improvements provided to our residents. However, these fund financial statements focus on the City's most significant funds. In the case of the City, the major funds are the General, Economic Development, American Rescue Plan, and Capital Improvements Funds. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

City of Brook Park, Ohio

Management's Discussion and Analysis (Unaudited) (continued)

For the Year Ended December 31, 2021

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources as well as on the balance of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the near-term financing requirements of a government. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets and deferred inflows of resources that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the City's general government operations and the basic services it provides. Both the *Governmental Funds Balance Sheet* and the *Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances* provide a reconciliation to facilitate a comparison between governmental activities (reported in the *Statement of Net Position* and the *Statement of Activities*) and governmental funds.

The City maintains 22 individual governmental funds. Information is presented separately in the *Governmental Funds Balance Sheet* and in the *Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances* for the General Fund, Economic Development, American Rescue Plan, and Capital Improvements Fund. Data from the other governmental funds are combined into single, aggregated presentations. Individual fund data for each of these nonmajor governmental funds is provided in this Annual Comprehensive Financial Report in the form of combining statements.

The City adopts an annual appropriated budget for each of its funds. A budgetary comparison statement (non-GAAP budgetary basis) has been provided for each governmental and proprietary fund to demonstrate budgetary compliance.

Proprietary Funds

Internal service funds are an accounting device used to accumulate and allocate costs internally among the various functions of a city. This fund has been included with governmental activities in the government-wide financial statements. The City maintains one proprietary fund for the self-insurance of health care benefits.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Internal Service Fund. The basic proprietary fund financial statements can be found starting on page 26.

Fiduciary Funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the government and are not reflected in the government-wide financial statements because resources are not available to support the City's own programs. The City has only one custodial fund to report within the fiduciary fund category.

Notes to the Financial Statements

The notes provide additional information that is essential for a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found starting on page 31.

City of Brook Park, Ohio

Management's Discussion and Analysis (Unaudited) (continued)

For the Year Ended December 31, 2021

Other information

In addition to the basic financial statements and the accompanying notes, this Annual Comprehensive Financial Report also presents certain other information that the City believes readers will find useful. After the notes to the basic financial statements, the required supplementary information, notes to the required supplementary information, and the combining statements, referred to earlier in connection with nonmajor governmental funds, are presented along with individual detailed budgetary comparisons for all nonmajor funds. This information can be found starting on page 86.

The City as a Whole

The *Statement of Net Position* looks at the City as a whole and can prove to be a useful indicator of the City's financial position. Table 1 provides a summary of the City's net position for 2021 as compared to 2020.

Table 1
Net Position

City of Brook Park, Ohio

Management's Discussion and Analysis (Unaudited) (continued)

For the Year Ended December 31, 2021

The net pension liability (NPL) is the largest single liability reported by the City at December 31, 2021 and is reported pursuant to GASB Statement 68, "Accounting and Financial Reporting for Pensions—an Amendment of GASB Statement 27." The City previously adopted GASB Statement 75, "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions," which significantly revises accounting for costs and liabilities related to other postemployment benefits (OPEB). For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the City's actual financial condition by adding deferred inflows related to pension and OPEB, the net pension liability and the net OPEB liability to the reported net position and subtracting deferred outflows related to pension and OPEB, net pension asset and net OPEB asset.

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. Prior accounting for pensions (GASB 27) and postemployment benefits (GASB 45) focused on a funding approach. This approach limited pension and OPEB costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's net pension liability or net OPEB liability. GASB 68 and GASB 75 take an earnings approach to pension and OPEB accounting; however, the nature of Ohio's statewide pension/OPEB plans and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

GASB 68 and GASB 75 require the net pension liability and the net OPEB liability to equal the City's proportionate share of each plan's collective:

1. Present value of estimated future pension/OPEB benefits attributable to active and inactive employees' past service.
2. Minus plan assets available to pay these benefits

GASB notes that pension and OPEB obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension and other postemployment benefits. GASB noted that the unfunded portion of this promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the City is not responsible for certain key factors affecting the balance of these liabilities. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The Ohio revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the retirement system. In Ohio, there is no legal means to enforce the unfunded liability of the pension/OPEB plan *as against the public employer*. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The retirement system is responsible for the administration of the pension and OPEB plans.

City of Brook Park, Ohio

Management's Discussion and Analysis (Unaudited) (continued)

For the Year Ended December 31, 2021

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability or the net OPEB liability. As explained above, changes in benefits, contribution rates, and return on investments affect the balance of these liabilities, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability and the net OPEB liability are satisfied, these liabilities are separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68 and GASB 75, the City's statements prepared on an accrual basis of accounting include an annual pension expense and an annual OPEB expense for their proportionate share of each plan's change in net pension liability and net OPEB liability, respectively, not accounted for as deferred inflows/outflows.

Net position may serve over time as useful indicator of a government's financial position. The City's total assets and deferred outflows of resources exceeded its total liabilities and deferred inflows of resources at the close of 2021 by \$62,954,191. Due to the recording of GASB 68 and GASB 75, the City's unrestricted net position was a negative \$4,465,023.

The largest portion of the City's total net position reflects its net investment in capital assets, i.e. land, construction in progress, buildings and improvements, machinery, equipment, vehicles and infrastructure, less any related outstanding debt used to acquire those assets along with related deferred outflows/inflows of resources. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt and related deferred outflows/inflows of resources, it should be noted that resources needed to repay this debt must be provided from other sources since the capital assets themselves cannot be used to liquidate those liabilities and related deferred inflows of resources.

Total assets increased by \$1,355,867 during the current year. This increase was largely attributed to current and other assets increasing due to a larger cash and cash equivalents balance at year-end. Due to COVID-19, the City was conservative in their spending measures coupled with CARES Act money resulted in an increased cash balance. Net OPEB asset was brought onto the financial statements due to the changes made in GASB 75. This was also a contributing factor in the increase in Total Assets.

Total liabilities decreased by \$6,251,643, which is primarily due to the decrease in net pension liability coupled with the continued pay down of the City's debt.

The changes in deferred outflows of resources and deferred inflows of resources are all due to the recording of GASB statements No. 68 and 75 as previously discussed.

The table presented on the following page is necessary to show the City's Net Position without the implementation of GASB 68 and GASB 75.

City of Brook Park, Ohio

Management's Discussion and Analysis (Unaudited) (continued)

For the Year Ended December 31, 2021

Governmental Activities

Several revenue sources fund the City's governmental activities, with City income tax being the largest contributor. The City's income tax rate is two percent on gross income and has not changed since 1991. Residents of the City who work in other communities and pay the withholding tax to those municipalities receive a 100 percent tax credit of up to two percent on their City income tax. During 2021, the revenues generated from municipal income tax and other miscellaneous taxes amounted to \$20,498,863. The 3.92 percent increase in income tax collections from 2020 to 2021 is the economy beginning to open back up during 2021.

For 2021, City income tax revenue of 20 percent is earmarked for specific capital improvements. These revenues are allocated by City ordinance, providing that a substantial portion of the City's income tax collections be set aside for roads, city facilities and other capital requirements. Of the \$28,594,017 in total revenue, municipal income tax and other taxes accounted for 71.69 percent, property taxes accounted for 6.99 percent, charges for services accounted for 9.60 percent, and operating grants and contributions accounted for 5.03 percent of total revenue.

The combination of municipal income tax, property tax, charges for services, intergovernmental funding and operating and capital grants and contributions were not sufficient to fund all of the expenses in the governmental activities. The City monitors its sources of revenues very closely for fluctuations. There was a decrease of \$1,509,732 in operating grants and contributions due to CARES Act funding being used in 2020 and no ARPA money was spent in 2021. Capital grants and contributions increased \$619,671 from 2020 due to the City receiving grants from the county for road projects. All other revenues decreased by \$2,020,633 which is mainly attributed to Ohio Bureau of Worker's Comp providing distributions to employers during 2020 as a response to the COVID-19 pandemic that was not necessary in 2021. Charges for services increased \$684,420 due to many of services that were suspended during the pandemic were re-opened.

The provisions of GASB Statements 68 and 75 require the City to recognize a pension/OPEB adjustment that decreased expenses by \$6,315,178 in 2021. As a result, it is difficult to ascertain the true operational cost of services and the changes in cost of service from year to year. The table below shows the total expenses by function with the GASB Statements 68 and 75 pension and OPEB expenses removed.

Table 4
Expenses

	2021	2020
EXPENSES		
Program Expenses:		
Security of persons and property	\$ 12,485,744	\$ 11,918,799
General government	5,551,173	5,449,646
Public works	3,640,599	3,443,619
Leisure time activities	2,722,753	2,936,882
Transportation	3,489,907	2,863,739

Public health and welfare	291,150	263,620
Interest and fiscal charges	288,012	350,480
Total Expenses	\$ 29,623,902	\$ 28,416,944

City of Brook Park, Ohio

Management's Discussion and Analysis (Unaudited) (continued)

For the Year Ended December 31, 2021

The largest program functions for the City relate to security of persons and property accounting for 42.15% of program expenditures. This is followed by General Government and Public works, which account for 18.74% and 12.29%, respectively. Transportation saw the sharpest increase from 2020 at \$626,168. This is attributed to the increase of road projects performed in 2021.

Program Expenses

For the year ended December 31, 2021, the City's total cost of services was \$29,623,902, with a net cost of services totaling \$24,720,541.

Table 5 itemizes fiscal year 2021 program expenses by specific function (excluding the pension and OPEB expenses as previously mentioned).

Table 5
Program Expenses

	Total Cost of Services 2021	Net Cost of Services 2021
Security of persons and property	\$ 12,485,744	\$ 11,966,634
General government	5,551,173	4,798,036
Public works	3,640,599	3,532,008
Transportation	2,722,753	843,743
Leisure time activities	3,489,907	3,128,729
Community development	1,154,564	(120,171)
Public health and welfare	291,150	283,550
Interest and fiscal charges	288,012	288,012
Total cost of service	<u>\$ 29,623,902</u>	<u>\$ 24,720,541</u>

The table above shows the total cost of services as well as the net cost of services. That is, it identifies the cost of the services supported by tax revenue and unrestricted intergovernmental revenues.

As referenced, most of the City's governmental activities rely on general revenues (property taxes, municipal income tax, grants, etc.) to support program expenses.

The City's Funds

Governmental Funds

The focus of the City's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balances may serve as a useful measure of a government's net resources available for spending at the end of the year. Information about the City's governmental funds begins on page 19.

As of the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$27,981,850. Of that amount, \$7,907,644 constitutes unassigned fund balances that are available for spending at the government's discretion without externally or internally imposed constraints. The remaining balance is nonspendable, restricted, committed, or assigned to indicate that it is not available for new spending.

City of Brook Park, Ohio

Management's Discussion and Analysis (Unaudited) (continued)

For the Year Ended December 31, 2021

General Fund

The General Fund is the chief operating fund of the City. As of December 31, 2021, the total fund balance for the General Fund was \$14,000,816, of which \$8,057,644 was unassigned. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to fund expenditures (not including other financing uses). Unassigned fund balance represents 38.70 percent of total General Fund expenditures, while total fund balance represents 67.79 percent of that same amount.

During 2021, the General fund balance decreased by \$2,702,360 or 16.18 percent. This decrease is due to \$5,747,453 getting transferred into other funds to cover costs.

Economic Development

The Economic Development Fund accounts for parking fees and proceeds received from the sale of City owned property committed for expenditures essential to the development of the City. The total committed fund balance is \$3,804,794 at December 31, 2021. This was a due to a \$3,000,000 transfer in from the General Fund for future economic development.

American Rescue Plan Act

The American Rescue Plan Act fund accounts for the grant proceeds to local governments who have been financially impacted by the COVID-19 Pandemic. This fund did not maintain at balance at December 31, 2021. The fund maintained a cash balance of \$962,767 that was reported as unearned revenue until it is spent by the City.

Capital Improvements Fund

The Capital Improvements Fund accounts for intergovernmental revenue in the form of grants as well as the portion of municipal income tax allocated by City Council for the purpose of improving, constructing, maintaining and purchasing those items necessary to enhance the operation of the City. As of December 31, 2021, the total fund balance for the Capital Improvements Fund was \$4,959,272, of which \$4,744,872 was committed due to constraints imposed by Council and \$214,400 was restricted by external constraints. The fund balance increased by \$909,711 during 2021. This increase is mainly due the conservative spending approach the City took in order to combat the uncertainty of COVID-19 pandemic.

City Budget

The City's budget is prepared according to Ohio law and accounts for certain transactions on a basis of cash receipts, cash disbursements and encumbrances. The most significant budgeted fund is the General Fund. Except for agency funds, an annual appropriation budget is legally required to be prepared for all funds of the City. City Council is provided with a detailed line-item budget for all departments.

After discussions at regularly held council meetings that are open to the public, the budget is adopted at the department level by object. Within each object, appropriations can be transferred between line items with the approval of the Finance Director and the respective department head. Council must approve any revisions in the budget that alter object level totals or total appropriations for any department or fund.

City of Brook Park, Ohio

Management's Discussion and Analysis (Unaudited) (continued)

For the Year Ended December 31, 2021

During the course of 2021, the City amended its General Fund budget twice. The finance department watches all department expenditures closely to monitor compliance with allocated budgets and provides monthly reports to City Council that depicts monthly and year-to-date activity.

For the General Fund, the final budget basis revenue plus other financing sources was \$22,588,081 as compared to the original budget estimate plus other financing sources of \$20,626,287. The final budget was higher than the original budget. The final appropriations plus other financing uses of \$28,385,966 were sufficient to meet the actual expenditures plus other financing uses for the year, which amounted to \$26,330,166. This is a result on of finance budgeting with conservatism as it related to COVID-19 pandemic.

Capital Assets and Debt Administration

Capital Assets

As of December 31, 2021, the City had \$73,515,709 invested in land, construction in progress, buildings and improvements, improvements other than buildings, machinery and equipment, furniture and fixtures, vehicles and infrastructure. Table 6 shows fiscal year 2021 balances of capital assets, net of depreciation, as compared to 2020.

Table 6
Capital Assets at Year End
(Net of Depreciation)

	2021	2020
Land	\$ 3,109,966	\$ 3,025,579
Construction in progress	2,204,978	2,030,624
Buildings and improvements	6,650,520	7,360,388
Improvements other than buildings	291,802	646,905
Machinery and equipment	961,366	906,759
Furniture and fixtures	15,789	11,403
Vehicles	2,959,321	2,810,626
Infrastructure:		
Streets	39,895,280	39,851,519
Sewers	16,210,840	16,776,512
Water Lines	1,215,847	1,248,943
Total Capital Assets	<u>\$ 73,515,709</u>	<u>\$ 74,669,258</u>

In 2021, the \$1,153,549 decrease in total capital assets was a result of depreciation totaling \$4,511,154. This was slightly offset by the capital additions of \$3,677,485.

With respect to infrastructure, the City engineer maintains a comprehensive listing of all the streets, bridges, culverts and sewer lines located within the City. As part of the annual road maintenance program, the City engineer evaluates the condition of each street after each winter and prepares a list of streets to be either resurfaced or crack sealed. In the case of concrete roads, the damaged portion will be either replaced or repaired. After approval from City Council, the projects are bid to get the best possible pricing from contractors. For additional information on capital assets, see Note 7 of the basic financial statements.

City of Brook Park, Ohio

Management's Discussion and Analysis (Unaudited) (continued)

For the Year Ended December 31, 2021

Debt

On December 31, 2021, the City had \$14,29,189 in outstanding debt, with \$949,928 of that debt due within one year. Table 7 below summarizes general obligation bonds, capital leases, and OPWC loans.

Table 7
Outstanding Debt at Year End

	<u>2021</u>	<u>2020</u>
General obligation bonds	\$ 8,600,000	\$ 9,165,000
Capital leases	961,944	589,207
OPWC loans	<u>2,057,820</u>	<u>2,305,408</u>
Total outstanding debt	<u>\$ 11,619,764</u>	<u>\$ 12,059,615</u>

As of December 31, 2021, the City's overall legal debt margin was \$38,947,344, with an unvoted debt margin of \$16,329,568.

More detailed information about the City's debt liabilities is presented in Notes 8 and 9 of the basic financial statements.

Current Financial Related Activities

In closing, local officials continue to work through the economic challenges facing the City and remain committed to providing full disclosure of the City's financial position to its residents.

Contacting the City's Finance Department

The Annual Comprehensive Financial Report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the City's finances and to show the City's accountability for the money it receives. If you have any questions about this Annual Comprehensive Financial Report or need additional financial information, please contact Finance Director Gregory M. Cingle, at the City of Brook Park, 6161 Engle Rd., Brook Park, Ohio, (216) 433-1300, or e-mail to info@cityofbrookpark.com.

City of Brook Park, Ohio

Reconciliation of Total Governmental Funds Balances to Net Position of Governmental Activities December 31, 2021

Total Governmental Funds Balance	\$ 27,981,850
---	---------------

Amounts reported for Governmental Activities in the Statement of Net Position are different because:

Capital Assets used in Governmental Activities are not financial resources and, therefore, are not reported in the funds	73,515,709
--	------------

Other long-term assets are not available to pay for current-period expenditures and, therefore, are unavailable revenues in the funds:

Delinquent property taxes	\$ 53,632	
Municipal income	1,110,855	
Special assessments	68,502	
Intergovernmental	672,654	
Charges for services	42,301	
Total		1,947,944

In the Statement of Activities, interest is accrued on outstanding bonds, whereas in Governmental funds, an interest expenditure is reported when due.	(28,332)
--	----------

Internal Service funds are used by management to charge the costs of certain activities, such as insurance to individual funds. The assets of the Internal Service funds are included in Governmental Activities in the Statement of Net Position.	2,699,571
--	-----------

The net pension liability/asset and net OPEB Liability are not due and payable in the current period; therefore, the liability/asset and related deferred inflows/outflows are not reported in governmental funds:

Deferred Outflows - Pension	3,995,726	
Deferred Inflows - Pension	(4,708,403)	
Net Pension Liability/Asset	(22,892,103)	
Deferred Outflows - OPEB	2,675,956	
Deferred Inflows - OPEB	(3,368,764)	
Net OPEB Liability/Asset	(4,341,265)	
Total		(28,638,853)

Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds:

General obligation bonds	(8,600,000)	
OPWC loans	(2,057,820)	
Unamortized bond premiums	(270,811)	
Deferral on refunding	46,302	
Capital leases	(961,944)	
Accrued compensated absences	(2,679,425)	
Total		(14,523,698)

Net Position of Governmental Activities	\$ 62,954,191
--	----------------------

The notes to the basic financial statements are an integral part of this statement

City of Brook Park, Ohio

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Year Ended December 31, 2021

Net Change in Fund Balances-Total Governmental Funds \$ 499,220

Amounts reported for Governmental Activities in the Statement of Activities are different because:

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation exceeded capital outlays in the current period.

Capital Outlay	\$ 3,677,485	
Depreciation	<u>(4,511,154)</u>	
Total		(833,669)

In the Statement of Activities, only the loss on the disposal of capital assets is reported, whereas, in the Governmental Funds, the proceeds from the disposals increase financial resources. Thus, the change in net position differs from the change in fund balance by the net book value of the capital assets. (319,880)

Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds.

Delinquent property taxes	(21,318)	
Municipal income taxes	(529,406)	
Special assessments	10,108	
Intergovernmental	(3,165)	
Charges for services	<u>(1,793)</u>	
Total		(545,574)

Other financing sources in the Governmental funds increase long-term liabilities in the Statement of Net Position. These sources were attributed to the issuance of refunding bonds and capital leases. (4,263,698)

Repayment of bond, lease, and loan principal are expenditures in the Governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position. 4,703,549

Contractually required contributions are reported as expenditures in governmental funds; however, the statement of net position reports these amounts as deferred outflows.

Pension	2,074,987
OPEB	123,590

Except for amounts reported as deferred inflows/outflows, changes in the net pension/OPEB liability are reported as pension expense in the statement of activities.

Pension	734,366
OPEB	3,382,235

Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in Governmental funds.

Accrued compensated absences	(143,785)	
Amortization of loss on refunding	46,302	
Accrued interest on bonds	9,759	
Amortization of bond premiums	<u>67,996</u>	
Total		(19,728)

Internal Service funds are used by management to charge costs to certain activities, such as insurance to individual funds. The net revenue (expense) of Internal Service funds are reported in the Governmental Activities. (250,105)

Change in Net Position of Governmental Activities \$ 5,285,293

City of Brook Park, Ohio

Notes to the Basic Financial Statements

For The Year Ended December 31, 2021

Note 1: The Reporting Entity

The City of Brook Park (the City) is a home rule municipal corporation established under the laws of the State of Ohio which operates under its own Charter. The current Charter, which provides for a mayor-council form of government, was adopted October 18, 1966.

A reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that the financial statements are not misleading. The primary government of the City consists of all funds, departments, boards and agencies that are not legally separate from the City. For the City, this includes police and fire protection, parks and recreation, planning, zoning, street maintenance and repair, refuse collection and general administrative services. The City's departments include a public safety department, a public service department, a street maintenance department, a sanitation system, a parks and recreation department, a planning and zoning department, and a staff to provide support (i.e., payroll processing, accounts payable, and revenue collection) to the service providers. The operation of each of these activities and entities is directly controlled by the City Council through the budgetary process.

The Mayor's Court (the Court), which provides judicial services, is responsible for the levying and collecting of fines and forfeitures under state and local laws, and their subsequent distribution to various government agencies. The City budgets and appropriates funds for the operation of the Court and is ultimately responsible for any operating deficits sustained by the Court. The City's share of the fines collected by the Court, along with its share of the Court's administrative and operating costs, is recorded in the City's General Fund. Due to this relationship, the Court is not considered a component unit of the City but rather as part of the primary government unit itself.

Component units are legally separate organizations for which the City is financially accountable. The City is financially accountable for an organization if the City appoints a voting majority of the organization's governing board and (1) the City is able to significantly influence the programs or services performed or provided by the organization; or (2) the City is legally entitled to or can otherwise access the organization's resources; the City is legally obligated or has otherwise assumed the responsibility to finance deficits of, or provide financial support to the organization. Component units may also include organizations that are fiscally dependent on the City in that the City approves the budget, the issuance of debt, or the levying of taxes. The City has no component units.

Jointly Governed Organizations

Southwest General Health Center

Southwest General Health Center is an Ohio nonprofit corporation providing health services. The Health Center is a jointly governed organization among the communities of Berea, Brook Park, Columbia Township, Middleburg Heights, Olmsted Falls and Strongsville.

The Health Center is governed by a Board of Trustees consisting of the following: one member of the legislative body from each of the political subdivisions, one resident from each of the political subdivisions who is not a member of the legislative body, three persons who are residents of any of the participating political subdivisions, the president and the executive vice president of the corporations, and the president and the vice president of the medical staff. The legislative body of each political subdivision elects their own member to serve on the Board of Trustees of the Health Center.

City of Brook Park, Ohio

Notes to the Basic Financial Statements (continued)

For The Year Ended December 31, 2021

Note 1: The Reporting Entity (continued)

Jointly Governed Organizations (continued)

The Board exercises total control over the operations of the Health Center including budgeting, appropriating, contracting and designating management. Each City's control is limited to its representation on the Board. In 2021, the City of Brook Park contributed \$112,291 of property tax levies and intergovernmental revenue to the Health Center.

Southwest Regional Communications

The Southwest Regional Communications is a jointly-governed organization between the City and seven other communities. Formed as a Regional Council of Governments as permitted under Ohio Revised Code Section 167.01, the intent of this organization is to establish, own, operate, maintain, and administer, a regional communications network for public safety and public service purposes for the mutual benefit of the participating communities. This organization is controlled by a governing body consisting of each participating community's mayor or his/her delegate or representative. The degree of control exercised by any member is limited to its representation on the governing board. All members agree to contribute the sums of money on a shared basis as agreed per the requirements set forth in the Articles of Understanding. In accordance with GASB Statement No. 14 as amended by GASB Statement No. 61, the City does not have an equity interest in the organization. Financial information may be obtained by writing to the Network Council, at 17401 Holland Road, Brook Park, Ohio 44142.

Note 2: Summary of Significant Accounting Policies

The financial statements of the City have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to local governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial principles. The most significant of the City's accounting policies are described below.

A. Basis of Presentation

The City's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

Government-Wide Financial Statements

The statement of net position and the statement of activities display information about the City as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The activity of the internal service fund is eliminated to avoid doubling up revenues and expenses.

City of Brook Park, Ohio

Notes to the Basic Financial Statements (continued)

For The Year Ended December 31, 2021

Note 2: Summary of Significant Accounting Policies (continued)

A. Basis of Presentation (continued)

The statement of net position presents the financial condition of the governmental activities of the City at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the City's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues not classified as program revenues are presented as general revenues of the City, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the City.

Fund Financial Statements

During the year, the City segregates transactions related to certain City functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the City at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column. Non-Major funds are aggregated and presented in a single column. The internal service fund is presented in a single column on the face of the proprietary fund statements. Fiduciary funds are reported by type.

B. Fund Accounting

The City uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. There are three categories of funds: governmental, proprietary and fiduciary.

Governmental Funds

Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and deferred outflows of resources compared to liabilities and deferred inflows of resources is reported as fund balance. The following are the City's major governmental funds:

General Fund

The General Fund accounts for all financial resources except those required to be accounted for in another fund. The General Fund balance is available to the City for any purpose provided it is expended or transferred according to the charter of the City and/or the general laws of Ohio.

City of Brook Park, Ohio

Notes to the Basic Financial Statements (continued)

For The Year Ended December 31, 2021

Note 2: Summary of Significant Accounting Policies (continued)

B. Fund Accounting (continued)

Economic Development Fund

The Economic Development Fund accounts for parking fees and proceeds received from the sale of City owned property committed for expenditures essential to the development of the City.

American Rescue Plan Act Fund

The American Rescue Plan Act fund accounts for the grant proceeds to local governments who have been financially impacted by the COVID-19 Pandemic.

Capital Improvements Fund

The Capital Improvements Fund accounts for intergovernmental revenues, bond proceeds, and the portion of municipal income tax allocated by Council for the purpose of improving, constructing, maintaining, and purchasing those items necessary to enhance the operation of the City.

The other governmental funds of the City account for grants and other resources whose use is restricted, committed, or assigned to a particular purpose.

Proprietary Funds

Proprietary fund reporting focuses on the determination of operating income, changes in net position, financial position and cash flows. Proprietary funds are classified as either enterprise or internal service. The City has no enterprise funds.

Internal Service Fund

Internal service funds account for the financing of services provided by one department or agency to other departments or agencies of the City on a cost-reimbursement basis. The City's internal service fund reports on a shared-insurance program for employee medical benefits.

Fiduciary Funds

Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension (and other employee benefit) trust funds, investment trust funds, private-purpose trust funds, and custodial funds. Trust funds are distinguished from custodial funds by the existence of a trust agreement or equivalent arrangements that have certain characteristics. Custodial funds are used to report fiduciary activities that are not required to be reported in a trust fund. The City's fiduciary fund is one custodial fund. The custodial fund is used to account for building code fees due to other governments.

City of Brook Park, Ohio

Notes to the Basic Financial Statements (continued)

For The Year Ended December 31, 2021

Note 2: Summary of Significant Accounting Policies (continued)

C. Measurement Focus

Government-Wide Financial Statements

The government-wide financial statements are prepared using the economic resources measurement focus. All assets and deferred outflows of resources and all liabilities and deferred inflows of resources associated with the operation of the City are included on the Statement of Net Position, except for fiduciary funds. The Statement of Activities presents increases (e.g. revenues) and decreases (e.g. expenses) in total net position.

Fund Financial Statements

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and deferred outflows of resources and current liabilities and deferred inflows of resources generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the government-wide statements, all proprietary funds are accounted for on a flow of economic resources measurement focus. All assets and deferred outflows of resources and all liabilities and deferred inflows of resources associated with the operation of these funds are included on the statement of net position. The statement of revenues, expenses and changes in net position presents increases (i.e., revenues) and decreases (i.e., expenses) in total net position. The statement of cash flows provides information about how the City finances and meets the cash flow needs of its proprietary activities.

D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting; proprietary and fiduciary funds also use the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred outflows/inflows of resources, and in the presentation of expenses versus expenditures.

Revenues – Exchange and Non-Exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the year in which the resources are measurable and become available. Available means that the resources will be collected within the current year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current year. The available period for the City is sixty days after year-end.

City of Brook Park, Ohio

Notes to the Basic Financial Statements (continued)

For The Year Ended December 31, 2021

Note 2: Summary of Significant Accounting Policies (continued)

D. Basis of Accounting (continued)

Non-exchange transactions, in which the City receives value without directly giving equal value in return, include income taxes, property taxes, grants, entitlements and donations. On an accrual basis, revenue from income taxes is recognized in the period in which the income is earned. Revenue from property taxes is recognized in the year for which the taxes are levied (see Note 6). Revenue from grants, entitlements and donations is recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the City must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the City on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at year-end: income tax, state-levied locally shared taxes (including gasoline tax and motor vehicle license tax), fines and forfeitures, licenses and permits, interest, grants and entitlements and rentals.

Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied. The City has unearned revenue related to unspent portions of American Rescue Plan Act funds and cash bonds held for proper repair of street openings.

Deferred Outflows/Inflows of Resources

In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the City, deferred outflows of resources are reported on the government-wide statement of net position for pension/OPEB. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. The deferred outflows of resources related to pension and OPEB are explained in Notes 11, 12, and 13.

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized until that time. For the City, deferred inflows of resources include property taxes, pension, OPEB, and unavailable revenue. Property taxes represent amounts for which there is an enforceable legal claim as of December 31, 2021, but which were levied to finance year 2022 operations. These amounts have been recorded as a deferred inflow on both the government-wide statement of net position and governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet and represents receivables which will not be collected within the available period. For the City, unavailable revenue includes delinquent property taxes, municipal income taxes, special assessments, intergovernmental, and charges for services. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available. Deferred inflows of resources related to pension and OPEB plans are reported on the government-wide statement of net position. (See Note 11, 12, and 13)

City of Brook Park, Ohio

Notes to the Basic Financial Statements (continued)

For The Year Ended December 31, 2021

Note 2: Summary of Significant Accounting Policies (continued)

D. Basis of Accounting (continued)

Expenses/Expenditures

On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

E. Budgetary Process

An annual appropriated budget is legally required to be prepared for all funds of the City other than agency funds. Council passes appropriations at the department level by object. Line item appropriations may be transferred between the accounts with the approval of the Finance Director and respective department head. Council must approve any revisions in the budget that alter total fund appropriations. The following are the procedures used by the City in establishing the budgetary data reported in the basic financial statements:

Tax Budget

A tax budget of estimated revenue and expenditures for all funds other than agency funds is submitted to the County Auditor, as Secretary of the County Budget Commission, by July 20th of each year, for the period January 1 to December 31 of the following year.

Estimated Resources

The County Budget Commission determines if the budget substantiates a need to levy the full amount of authorized property tax rates and reviews revenue estimates. The Commission certifies its actions to the City by September 1. As part of this certification, the City receives the official certificate of estimated resources, which states the projected revenue of each fund. Prior to December 31, the City must revise its budget so that the total contemplated expenditures from any fund during the ensuing fiscal year will not exceed the amount available as stated in the certificate of estimated resources. The revised budget then serves as the basis for the annual appropriations measure.

On or about January 1 the certificate of estimated resources is amended to include unencumbered fund balances at December 31. Further amendments may be made during the year if the Finance Director determines that revenue to be collected will be greater than or less than the prior estimates and the budget commission considers the revised estimates to be reasonable. The amounts reported in the budgetary statements as original represent the amounts in the first official certificate of estimated resources issued during 2021. The amounts reported in the budgetary statements as final reflect the amounts in the final amended official certificate of estimated resources issued during 2021.

City of Brook Park, Ohio

Notes to the Basic Financial Statements (continued)

For The Year Ended December 31, 2021

Note 2: Summary of Significant Accounting Policies (continued)

E. Budgetary Process (continued)

Annual Estimate

The Mayor, with the assistance of the Finance Director, is required by Charter to submit to Council, on or before December 1 of each fiscal year, an estimate of the revenues and expenditures of each fund of the City for the next succeeding fiscal year. The annual estimate serves as the basis for appropriations (the appropriated budget) in each fund.

Appropriations

An appropriation ordinance (the appropriated budget) to control the level of expenditures for all funds must be legally enacted on or about January 1. Appropriations may not exceed estimated resources as established in the official Amended Certificate of Estimated Resources. Supplemental appropriations may be adopted by Council action. During the year, several supplemental appropriation measures were necessary. The amounts reported as the original budgeted amounts in the budgetary statements reflect the first appropriated budget for each fund that covered the entire year, including amounts automatically carried over from prior years. The amounts reported as the final budgeted amounts in the statements of budgetary comparisons represent the final appropriation amounts, including all amendments and modifications.

Lapsing of Appropriations

At the close of each year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriations. The encumbered appropriation balance is carried over for the subsequent year's expenditures and is re-appropriated.

Budgeted Level of Expenditure

Administrative control is maintained through the establishment of detailed line-item budgets. Appropriated funds may not be expended for purposes other than those designated in the appropriation ordinance without authority from Council. Expenditures plus encumbrances may not legally exceed appropriations at the level of appropriation adopted by Council. For all funds, Council appropriations are made at the department level by object. The appropriations set by Council must remain fixed unless amended by Council ordinance. More detailed appropriation allocations may be made by the Finance Director as long as the allocations are within Council's appropriated amount.

Encumbrances

As part of formal budgetary control, purchase orders, contracts, and other commitments for the expenditure of monies are encumbered and recorded as the equivalent of expenditures on the non-GAAP budgetary basis in order to reserve that portion of the applicable appropriation and determine and maintain legal compliance. The Ohio Revised Code prohibits expenditures plus encumbrances from exceeding appropriations. Encumbrances outstanding at year-end are reported as part of restricted, committed, and assigned fund balances for subsequent-year expenditures of governmental funds.

City of Brook Park, Ohio

Notes to the Basic Financial Statements (continued)

For The Year Ended December 31, 2021

Note 2: Summary of Significant Accounting Policies (continued)

F. Pooled Cash and Cash Equivalents

To improve cash management, cash received by the City is pooled. Monies for all funds are maintained in this pool. Individual fund integrity is maintained through City records. Each fund's interest in the pool is presented as "equity in pooled cash and cash equivalents" on the balance sheet.

The City has segregated bank accounts for monies held separate from the City's cash pool. These depository accounts are presented as "cash and cash equivalents in segregated accounts" since they are not required to be deposited into the City's treasury and are related to the City's mayor's court.

Investments are reported at fair value which is based on quoted market prices. Non-participating contracts such as non-negotiable certificates of deposits are reported at cost.

During fiscal year 2021, the City invested in STAR Ohio. STAR Ohio (the State Treasury Asset Reserve of Ohio), is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes.

STAR Ohio is not registered with the SEC as an investment company, but has adopted Governmental Accounting Standards Board (GASB), Statement No. 79 "Certain External Investment Pools and Pool Participants." The City measures their investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides a NAV per share that approximates fair value.

For 2021, there were no limitation or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates. However, notice must be given 24 hours in advance of all deposits and withdrawals exceeding \$100 million. STAR Ohio reserves the right to limit the transaction to \$250 million, requiring the excess amount to be transacted the following business day(s), but only to the \$250 million limit. All accounts of the participant will be combined for these purposes.

The City's policy is to hold investments until fair values equal or exceed cost.

Interest allocation is determined by the Ohio Constitution, state statutes, and local ordinances adopted under City Charter. Under these provisions, City funds required to receive interest allocations are: 1) those which receive monies from confiscated property from federal task forces and 2) those which receive distributions of state gasoline tax and motor vehicle licenses fees (street maintenance, state highway, and permissive tax special revenue funds). All remaining interest is allocated to the general fund. Legally, proprietary funds generally do not receive interest. Interest revenue credited to the General Fund during 2021 amounted to \$2,690, which includes \$1,582 assigned from other funds.

City of Brook Park, Ohio

Notes to the Basic Financial Statements (continued)

For The Year Ended December 31, 2021

Note 2: Summary of Significant Accounting Policies (continued)

G. Inventory

Inventories are stated at cost, on the first-in, first-out basis. The purchase method is used to account for inventories. Under the purchase method, inventories are recorded as expenditures in the governmental fund types when purchased; however, material amounts of inventories at period-end are reported as assets of the respective fund, which are equally offset in the non-spendable component of fund balance which indicates they are unavailable for appropriation even though they are a component of reported assets. Inventory consists of expendable supplies.

H. Prepaid Items

Payments made to vendors for services that will benefit periods beyond December 31, 2021, are recorded as prepaid items using the allocation method by recording a current asset for the prepaid amount and reflecting the expenditure/expense in the year in which it was consumed.

I. Receivables

Receivables at December 31, 2021 consist of taxes, intergovernmental, accounts (billings for user charged services), special assessments, and accrued interest on investments. All are deemed collectible in full.

J. Capital Assets

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activity's column of the government-wide statement of net position but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and disposals during the year. Donated capital assets are recorded at their acquisition value as of the date received. The City maintains a capitalization threshold of five thousand dollars. The City's infrastructure consists of bridges, culverts, curbs, sidewalks, storm sewers, streets, irrigation systems and water and sewer lines. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not. Interest incurred during the construction of capital assets is also capitalized.

All capital assets are depreciated except for land and construction in progress. Improvements are depreciated over the remaining useful lives of the related capital assets. Useful lives for infrastructure were estimated based on the City's historical records of necessary improvements and replacement. Depreciation is computed using the straight-line method over the following useful lives:

<u>Description</u>	<u>Estimated Lives</u>
Buildings and Improvements	50 years
Machinery and Equipment	10 to 15 years
Vehicles	6 to 10 years
Infrastructure	25 to 50 years

City of Brook Park, Ohio

Notes to the Basic Financial Statements (continued)

For The Year Ended December 31, 2021

Note 2: Summary of Significant Accounting Policies (continued)

K. Interfund Balances

On fund financial statements, outstanding interfund loans and unpaid amounts for interfund services are reported as “interfund receivables/payables”. Interfund loans which do not represent available expendable resources would be offset by a component of fund balance. Interfund balance amounts are eliminated in the statement of net position.

L. Compensated Absences

The City reports compensated absences in accordance with the provisions of GASB No. 16, “*Accounting for Compensated Absences*.” Vacation benefits are accrued as a liability as the benefits are earned if the employees’ rights to receive compensation are attributable to services already rendered and it is probable that the employer will compensate the employees for the benefits through paid time off or some other means.

Sick leave benefits are accrued as a liability using the vesting method. The liability includes the employees who are currently eligible to receive termination benefits and those that the City has identified as probable of receiving payment in the future. The amount is based on accumulated sick leave and employee wage rates at fiscal year-end taking into consideration any limits specified in the City’s termination policy.

Additionally, certain salary related payments associated with the payment of compensated absences have been accrued.

The entire compensated absence liability is reported on the government-wide financial statements. A liability for the amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

M. Pensions/Other Postemployment Benefits (OPEB)

For purposes of measuring the net pension/OPEB liability, net pension asset, net OPEB Asset, deferred outflows of resources and deferred inflows of resources related to pensions/OPEB, and pension/OPEB expense, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value.

N. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, claims and judgments and compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Bonds, capital leases and long-term loans are recognized as a liability on the governmental fund financial statements when due.

City of Brook Park, Ohio

Notes to the Basic Financial Statements (continued)

For The Year Ended December 31, 2021

Note 2: Summary of Significant Accounting Policies (continued)

O. Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the City is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

Nonspendable – The nonspendable fund balance classification includes amounts that cannot be spent because they are not spendable in form, or legally or contractually required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash. It also includes the long-term amount of loans receivable, as well as property acquired for resale, unless the use of the proceeds from the collection of those receivables or from the sale of those properties is restricted, committed, or assigned.

Restricted – Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions.

Committed – The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (ordinance) of the City’s Council. Those committed amounts cannot be used for any other purpose unless the City’s Council removes or changes the specified use by taking the same type of action (ordinance) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned – Amounts in the assigned fund balance classification are intended to be used by the City for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. These amounts are assigned by the City Council. In the general fund, assigned amounts would represent intended uses established by policies of the City Council or a City official delegated that authority by City Charter or ordinance, or by State statute. State statute authorizes the finance director to assign fund balance for purchases on order provided such amounts have been lawfully appropriated.

Unassigned – Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In the other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The City applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

City of Brook Park, Ohio

Notes to the Basic Financial Statements (continued)

For The Year Ended December 31, 2021

Note 2: Summary of Significant Accounting Policies (continued)

P. Net Position

Net position is the residual amount when comparing assets and deferred outflows of resources to liabilities and deferred inflows of resources. The net investment in capital assets component of net position consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets along with any related deferred outflows/inflows of resources. The restricted component of net position is reported when there are limitations imposed on their use either through the enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. As of December 31, 2021, the City did not have net position restricted by enabling legislation.

The City applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

Q. Grants and Intergovernmental Revenues

Federal grants and assistance awards made on the basis of entitlement periods are recorded as intergovernmental receivables and revenues when entitlement occurs. Federal reimbursement-type grants are recorded as intergovernmental receivables and revenues in the period when all applicable eligibility requirements have been met and the resources are available.

R. Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

S. Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the City Administration and that are either unusual in nature or infrequent in occurrence. Neither extraordinary nor special items had occurred in 2021.

T. Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

U. Asset Held for Resale

Assets held for resale represents land purchased by the City which will be sold for development purposes.

City of Brook Park, Ohio

Notes to the Basic Financial Statements (continued)

For The Year Ended December 31, 2021

Note 3: Change in Accounting Principles

During the year, the City implemented the following Governmental Accounting Standards Board (GASB) Statements:

GASB Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period*. The objectives of this Statement are (1) to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and (2) to simplify accounting for interest cost incurred before the end of a construction period. These changes were incorporated in the City's financial statements; however, there was no effect on the beginning net position/fund balance.

GASB Statement No. 98, *The Annual Comprehensive Financial Report*. The objective of this Statement is to establish the term annual comprehensive financial report and its acronym *ACFR*. These changes were incorporated in the City's financial statements; however, there was no effect on the beginning net position/fund balance.

GASB Implementation Guide 2019-1, *Update*. These changes were incorporated in the City's financial statements; however, there was no effect on the beginning net position/fund balance.

Note 4: Budgetary Basis of Accounting

While the City is reporting financial position, results of operations, and changes in fund balances on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances.

The Statements of Revenues, Expenditures and Changes in Fund Balances – Budget (Non-GAAP Budgetary Basis) and Actual presented for the General Fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and the GAAP basis are that:

- (a) Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis);
- (b) Advances in and advances out are operating transactions (budget basis) as opposed to balance sheet transactions (GAAP basis).
- (c) Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis);
- (d) Encumbrances are treated as expenditures (budget) rather than as a part of restricted, committed, and assigned fund balances (GAAP);
- (e) Some funds are included in the General Fund (GAAP basis), but have separate legally adopted budgets (budget basis).

City of Brook Park, Ohio

Notes to the Basic Financial Statements (continued)

For The Year Ended December 31, 2021

Note 4: Budgetary Basis of Accounting (Continued)

The following table summarizes the adjustments necessary to reconcile the GAAP basis statements to the budgetary basis statements for the General Fund, Economic Development, and American Rescue Plan.

	<u>Net Change in Fund Balance</u>		
	<u>General</u>	<u>Economic Development</u>	<u>American Rescue Plan</u>
GAAP Basis	\$ (2,852,360)	\$ 2,835,723	\$ -
Increase (Decrease) Due to:			
Revenue Accruals	(88,429)	(25,368)	962,767
Advances In	(150,000)	-	-
Expenditure Accruals	(264,537)	(32,092)	-
Funds with Separate Legally Adopted Budget	(180,786)	-	-
Outstanding Encumbrances	<u>(359,846)</u>	<u>(153,790)</u>	<u>-</u>
Budget Basis	<u>\$ (3,895,958)</u>	<u>\$ 2,624,473</u>	<u>\$ 962,767</u>

Note 5: Deposits and Investments

State statutes classify monies held by the City into three categories. Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the City treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are monies identified as not required for use within the current five-year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit account including, but not limited to, passbook accounts.

Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim monies may be deposited or invested in the following securities:

1. United States Treasury notes, Bills, Bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above provided that the fair value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily;

City of Brook Park, Ohio

Notes to the Basic Financial Statements (continued)

For The Year Ended December 31, 2021

Note 5: Deposits and Investments (continued)

4. Investment grade obligations of state and local governments, and public authorities;
5. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) of this section and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions; and
6. The State Treasurer's investment pool (STAR Ohio).

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the City and must be purchased with the expectation that it will be held to maturity.

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the treasurer or qualified trustee or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

A. Cash on Hand

At December 31, 2021, the City had \$4,030 in undeposited cash on hand, which is included on the balance sheet of the City as part of "Equity in Pooled Cash and Cash Equivalent."

B. Deposits

At year-end, the carrying amount of the City's deposits was \$22,448,629 (including \$31,745 of segregated accounts) and the bank balance was \$25,564,832. As of December 31, 2021, \$250,000 of the City's bank balances were covered by Federal depository insurance and the remaining \$25,314,832 was exposed to custodial credit risk because it was uninsured and collateralized. Although the securities were held by the pledging institution's trust department and all statutory requirements for the investment of money had been followed, noncompliance with Federal requirements could potentially subject the City to a successful claim by the FDIC.

The City has no deposit policy for custodial risk beyond the requirements of State statute. Ohio law requires that deposits be either insured or protected by:

Eligible securities pledged to the City and deposited with a qualified trustee by the financial institution as security for repayment whose fair value at all times shall be at least 105 percent of the deposits being secured; or

Participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution. OPCS requires the total fair value of the securities pledged to be 102 percent of the deposits being secured or a rate set by the Treasurer of State. The City's financial institution had enrolled in OPCS as of December 31, 2021.

City of Brook Park, Ohio

Notes to the Basic Financial Statements (continued)

For The Year Ended December 31, 2021

Note 5: Deposits and Investments (continued)

C. Investments

Investments are reported at Net Asset Value. As of December 31, 2021, the City had the following investments:

Investment Type	NAV	Credit Rating (*)	Investment Maturities (in Years)
			<1
STAR Ohio	\$ 6,849,241	AAAm	\$ 6,849,241
Total Investments	<u>\$ 6,849,241</u>		<u>\$ 6,849,241</u>

* Credit Ratings were obtained from Standard & Poor's, respectively, for all investments.

The City has categorized its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets. Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

Interest Rate Risk arises because potential purchasers of debt securities will not agree to pay face value for those securities if interest rates subsequently increase. The City's investment policy addresses interest rate risk requiring that the City's investment portfolio be structured so that securities mature to meet cash requirements for ongoing operations and/or long-term debt payments, thereby avoiding that need to sell securities on the open market prior to maturity and by investing operating funds primarily in short-term investments. The City's investment policy also limits security purchases to those that mature in five years unless specifically matched to a specific cash flow. To date, no investments have been purchased with a life greater than five years.

Custodial Risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, the City will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. All financial institutions and broker/dealers who desire to become qualified for investment transactions with the City must meet a set of prescribed standards and be periodically reviewed.

Credit Risk is addressed by the City's investment policy by the requirements that all investments are authorized by Ohio Revised Code and that the portfolio be diversified both by types of investment and issuer. The investments of the City are registered and the credit rating provided by Standard & Poor's is provided in the table above.

Concentration of Credit Risk is defined by the Governmental Accounting Standards Board as five percent or more in the securities of a single issuer. The City's investment policy requires diversification of the portfolio but does not indicate specific percentage allocations. The City's investment in STAR Ohio represents 100 percent of the City's total investments.

City of Brook Park, Ohio

Notes to the Basic Financial Statements (continued)

For The Year Ended December 31, 2021

Note 6: Receivables

Receivables at December 31, 2021 consisted primarily of taxes, intergovernmental receivables arising from grants, entitlements or shared revenues, accounts, special assessments and interest on investments. All receivables are considered fully collectible.

A. Property Tax

Property taxes include amounts levied against all real, public utility, and tangible personal property located in the City. Taxes collected on real property (other than public utility) in one calendar year are levied in the preceding calendar year on assessed values as of January 1 of that preceding year, the lien date. Assessed values are established by state statute at 35 percent of appraised market value. All property is required to be revalued every six years. The last revaluation was completed in 2020. Real property taxes are payable annually or semiannually. The first payment is due December 31, with the remainder payable by June 20.

Taxes collected on tangible personal property (other than public utility) in one calendar year are levied in the prior calendar year on assessed values during and at the close of the most recent fiscal year of the taxpayer that ended on or before March 31 of that calendar year, and at the tax rates determined in the preceding year.

Tangible personal property used in business (except for public utilities) is currently assessed for *ad valorem* taxation purposes at 25 percent of its true value. The tangible personal property tax has been phased out and the City is only receiving residual amounts from delinquent tangible personal property taxes.

Amounts paid by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semiannually. If paid annually, payment is due April 30; if paid semiannually, the first payment is due April 30; with the remainder payable by September 20.

Public utility real and tangible personal property taxes collected in one calendar year are levied in the preceding calendar year on assessed values determined as of December 31 of the second year preceding the tax collection year, the lien date. Certain public utility tangible personal property currently is assessed at 88 percent of its true value. Public utility property taxes are payable on the same dates as real property taxes described previously.

The County Fiscal Officer collects property taxes on behalf of all taxing districts in the county, including the City of Brook Park. The County Fiscal Officer periodically remits to the City its portion of the taxes collected.

The full tax rate for all City operations for the year ended December 31, 2021, was \$4.75 per \$1,000 of assessed value. The assessed values of real and tangible personal property upon which 2021 property tax receipts were based are as follows:

<u>Category</u>	<u>Assessed Value</u>
Real Estate	\$ 437,086,660
Public Utility	15,265,040
Total	<u>\$ 452,351,700</u>

City of Brook Park, Ohio

Notes to the Basic Financial Statements (continued)

For The Year Ended December 31, 2021

Note 6: Receivables (continued)

B. Income Tax

The City levies and collects a 2 percent income tax on all income earned within the City as well as on income of residents earned outside the City. In the latter case, the City allows a credit of 100 percent of the tax paid to another municipality, not to exceed the amount owed. Employers within the City are required to withhold income tax on employee earnings and remit the tax to the City at least quarterly. Corporations and other individual taxpayers are also required to pay their estimated tax at least quarterly and file a final return annually. The City, by ordinance, allocates income tax revenues and expenditures for collecting, administering, and enforcing the tax to the General and Capital Improvements Funds, at eighty and twenty percent, respectively.

The Capital Improvements Fund further allocates income taxes to other project-based capital projects funds, as transfers, through the budgetary process.

C. Intergovernmental

A summary of the principal items of intergovernmental receivables follows:

	<u>Amounts</u>
Local government funds	\$ 251,923
Homestead and rollback	115,678
Gasoline and excise tax	602,010
Permissive tax	3,770
City of Cleveland (share of OPWC loan)	538,504
Miscellaneous Grant	34,910
Total	<u>\$ 1,546,795</u>

General obligation bonds are direct obligations of the City for which its full faith and credit are pledged for repayment. In the event that income tax revenues are not sufficient to meet annual principal and interest requirements, the City has reserved the right to levy and assess a special assessment on the property. Revenues will be received in and the debt will be paid from the General Obligation Debt Service Fund.

During 2005, the Ohio Public Works Commission (OPWC) approved a loan to the City to finance a portion of the West 150th Street Improvement project. OPWC committed up to \$1,949,332 at a zero percent interest rate for twenty years. The City and the City of Cleveland have an agreement to share the debt service requirements of the OPWC loan. The City will pay 100 percent of the annual debt service requirements and the City of Cleveland will reimburse the City 65 percent of the annual debt service requirement. The City has recorded an intergovernmental receivable in the amount of \$538,504 to recognize the City of Cleveland's share of the loan.

During 2010, the Ohio Public Works Commission (OPWC) approved a loan to the City to finance a portion of the Smith/Hummel Sewer Improvement Project Phase II. OPWC committed up to \$573,140 at a zero percent interest rate for twenty years. The City has completed the project but only utilized \$118,139 of total \$573,140 in loan proceeds from OPWC.

During 2015, the Ohio Public Works Commission (OPWC) approved a loan to the City of Berea to finance the Eastland Road Reconstruction Project. OPWC has committed up to \$1,900,900 at a zero percent interest rate for twenty years. The City, the City of Berea and the City of Middleburg Heights have an agreement to share the debt service requirements of the OPWC loan. The City of Berea will pay 100 percent of the annual debt service requirements; the City will reimburse the City of Berea 34 percent of the annual debt service requirement; the City of Middleburg Heights will reimburse the City of Berea 43 percent of the annual debt service requirement.

City of Brook Park, Ohio

Notes to the Basic Financial Statements (continued)

For The Year Ended December 31, 2021

Note 8: Long-Term Obligations (continued)

During 2017, the Ohio Public Works Commission (OPWC) finalized a loan to the City to finance a portion of the Smith Rd. Sanitary Sewer Improvement Project Phase III. OPWC has committed up to \$802,825 at a zero percent interest rate for twenty years.

During 2019, the Ohio Public Works Commission (OPWC) finalized a loan to the City to finance a portion of the Holland Road Reconstruction has committed up to \$494,400 at a zero percent interest rate for twenty years. The total amount disbursed on the loan as of December 31, 2021 is \$128,001.

The City's direct borrowings from OPWC contain a provision that in an event of default the amount of such default shall bear interest thereafter at the rate of 8 percent per annum until the date of payment, and outstanding amounts became immediately due. Also, OPWC may direct the county treasurer to pay the outstanding amount from portion of the local government fund that would otherwise be appropriated to the City.

During 2011, the City issued \$1,705,000 in various purpose improvement bonds, series 2011 with interest rates ranging from 2.00 percent to 3.40 percent over the life of the bonds. The proceeds from these bonds were used to finance the reconstruction of Heatherwood Drive (\$905,000) and a waterline replacement on Sheldon Road (\$800,000). The bonds will mature in 2026.

On October 1, 2013, the City issued \$5,520,000 in various purpose improvement bonds, series 2013 with interest rates ranging from 2.00 percent to 4.75 percent over the life of the bonds. The proceeds from these bonds were used to finance the Engle Road resurfacing project (\$1,835,000), the Engle Road sanitary sewer replacement project (\$1,965,000), and the Smith Road sanitary sewer project (\$1,720,000). These bonds were fully refunded during 2021.

On April 26, 2017 the City issued \$4,980,000 in Energy Conservation Improvement bonds with interest rates ranging from 1.00 percent to 4.00 percent over the life of the bonds. The proceeds from these bonds were used to finance the Community Center Project. The bonds will be fully matured in 2037.

On November 10, 2021, the City issued \$3,580,000 in Refunding Bonds of various purpose improvement bonds, series 2013. The bonds were issued with an interest rate of 1.49 percent over the life of the bonds. The refunded bonds were recalled in December 2021. The bonds will be fully mature in 2033. The issuance resulted in a difference (savings) between the cash flows required to service the old debt and the cash flows required to service the new debt of \$962,583. The issuance resulted in an economic gain of \$549,226.

Compensated absences are generally paid from the General Fund, Street Maintenance Special Revenue Fund, State Highway Special Revenue Fund, and Community Diversion Special Revenue Fund.

See Note 9 for additional information on capital leases. There is no repayment schedule for the Net Pension/OPEB Liability; however, employer pension and OPEB contributions are made from the General Fund, SCMR, Police Pension, and Fire Pension funds. The City's overall legal debt margin was \$38,947,153 at December 31, 2021.

City of Brook Park, Ohio

Notes to the Basic Financial Statements (continued)

For The Year Ended December 31, 2021

Note 8: Long-Term Obligations (continued)

Principal and interest requirements to retire long-term obligations outstanding at December 31, 2021 are as follows:

Year	General Obligation Bonds		From Direct Borrowings - OPWC Loans	Principal	Interest
	Principal	Interest	Principal	Total	Total
2022	695,000	226,654	182,231	877,231	226,654
2023	715,000	209,022	182,229	897,229	209,022
2024	735,000	193,551	182,229	917,229	193,551
2025	705,000	176,646	182,230	887,230	176,646
2026	725,000	161,386	182,229	907,229	161,386
2027-2031	2,735,000	591,997	764,949	3,499,949	591,997
2032-2036	2,290,000	231,170	329,652	2,619,652	231,170
2037-2041	-	-	52,071	52,071	-
Total	<u>\$ 8,600,000</u>	<u>\$ 1,790,426</u>	<u>\$ 2,057,820</u>	<u>\$ 10,657,820</u>	<u>1,790,425</u>

Note 9: Capital Leases

The City has entered into lease agreements as lessee for financing which relate to various equipment and vehicles. These lease agreements qualify as capital leases for accounting purposes and therefore, have been recorded at the present value of their future minimum lease payments as of inception date.

	Governmental Activities
Assets:	
Vehicles	\$ 1,848,841
Less: accumulated depreciation	(388,794)
Total	<u>\$ 1,460,047</u>

The future minimum lease obligations and the net present value of these minimum lease payments as of December 31, 2021, were as follows:

Year	Payments
2022	\$ 325,669
2023	325,670
2024	124,296
2025	75,988
2026	75,987
Therein After	75,988
Total Minimum Lease Payments	<u>1,003,598</u>
Less: Amount Representing Interest	(41,654)
Present Value of Minimum Lease Payment	<u>\$ 961,944</u>

In the event of default, the lender may require the City to promptly deliver possession of the collateral to the lender, and may recover all expenses and collection costs which the lender has incurred.

City of Brook Park, Ohio

Notes to the Basic Financial Statements (continued)

For The Year Ended December 31, 2021

Note 10: Compensated Absences

Vacation leave is earned at rates which vary depending upon length of service and standard work week. Current policy credits vacation leave on the employee's anniversary date and allows the unused balance to be carried ninety days past the subsequent anniversary date. City employees are paid for earned and unused vacation leave at the time of termination of employment.

Sick leave is earned at the rate of four and six-tenths hours for every eighty hours worked for base employees, thirteen hours for firefighters, and ten hours for police patrol. Each employee with the City is paid for four eighths of the employee's earned unused sick leave upon retirement from the City, or the full balance may be transferred to another governmental agency.

Note 11: Defined Benefit Pension Plans

A. *Net Pension Liability/(Asset)*

The net pension liability/(asset) reported on the statement of net position represents a liability to employees for pensions. Pensions are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability/(asset) represents the City's proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension liability/asset calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the City's obligation for this liability to annually required payments. The City cannot control benefit terms or the manner in which pensions are financed; however, the City does receive the benefit of employees' services in exchange for compensation including pension.

GASB 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plan's unfunded benefits is presented as a long-term *net pension liability* on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in *intergovernmental payable* on both the accrual and modified accrual bases of accounting.

City of Brook Park, Ohio

For The Year Ended December 31, 2021

Note 11: Defined Benefit Pension Plans (continued)

B. Plan Description – Ohio Public Employees Retirement System (OPERS)

Plan Description - City employees participate in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans. The traditional pension plan is a cost-sharing, multiple-employer defined benefit pension plan. The member-directed plan is a defined contribution plan and the combined plan is a cost-sharing, multiple-employer defined benefit pension plan with defined contribution features. While members (e.g. City employees) may elect the member-directed plan and the combined plan, substantially all employee members are in OPERS' traditional plan; therefore, the following disclosure focuses on the traditional pension plan.

OPERS provides retirement, disability, survivor and death benefits, and annual cost of living adjustments to members of the traditional plan. City to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about OPERS' fiduciary net position that may be obtained by visiting <https://www.opers.org/financial/reports.shtml>, by writing to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling 800-222-7377.

Senate Bill (SB) 343 was enacted into law with an effective date of January 7, 2013. In the legislation, members were categorized into three groups with varying provisions of the law applicable to each group. The following table provides age and service requirements for retirement and the retirement formula applied to final average salary (FAS) for the three member groups under the traditional plan as per the reduced benefits adopted by SB 343 (see OPERS' Annual Comprehensive Financial Report referenced above for additional information):

Group A	Group B	Group C
Eligible to retire prior to January 7, 2013 or five years after January 7, 2013	20 years of service credit prior to January 7, 2013 or eligible to retire ten years after January 7, 2013	Members not in other Groups and members hired on or after January 7, 2013
State and Local	State and Local	State and Local
Age and Service Requirements: Age 60 with 60 months of service credit or Age 55 with 25 years of service credit	Age and Service Requirements: Age 60 with 60 months of service credit or Age 55 with 25 years of service credit	Age and Service Requirements: Age 62 with 60 months of service credit or Age 57 with 25 years of service credit
Formula: 2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30	Formula: 2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30	Formula: 2.2% of FAS multiplied by years of service for the first 35 years and 2.5% for service years in excess of 35

Final average Salary (FAS) represents the average of the three highest years of earnings over a member's career for Groups A and B. Group C is based on the average of the five highest years of earnings over a member's career.

City of Brook Park, Ohio

Notes to the Basic Financial Statements (continued)

For The Year Ended December 31, 2021

Note 11: Defined Benefit Pension Plans (continued)

B. Plan Description – Ohio Public Employees Retirement System (OPERS) (continued)

Members who retire before meeting the age and years of service credit requirement for unreduced benefits receive a percentage reduction in the benefit amount. The base amount of a member's pension benefit is locked in upon receipt of the initial benefit payment for calculation of the annual cost-of-living adjustment.

When a traditional plan benefit recipient has received benefits for 12 months, an annual cost of living adjustment (COLA) is provided. This COLA is calculated on the base retirement benefit at the date of retirement and is not compounded. For those retiring prior to January 7, 2013, the COLA will continue to be a 3 percent simple annual COLA. For those retiring subsequent to January 7, 2013, beginning in calendar year 2019, the COLA will be based on the average percentage increase in the Consumer Price Index, capped at 3 percent.

A death benefit of \$500 - \$2,500, determined by the number of years of service credit of the retiree, is paid to the beneficiary of a deceased retiree or disability benefit recipient under the Tradition pension plan and the Combined Plan.

The OPERS Board of Trustees approved a proposal at its October 2019 meeting to create a new tier of membership in the OPERS traditional pension plan. OPERS currently splits its non-retired membership into Group A, B or C depending on age and service criteria. Retirement Group D would consist of OPERS contributing members hired in 2022 and beyond. Group D will have its own eligibility standards, benefit structure and unique member features designed to meet the changing needs of Ohio public workers. It also will help OPERS address expected investment market volatility and adjust to the lack of available funding for health care. The date of implementation will be determined when finalized changes are approved.

Defined contribution plan benefits are established in the plan documents, which may be amended by the Board. Member-directed plan and combined plan members who have met the retirement eligibility requirements may apply for retirement benefits. The amount available for defined contribution benefits in the combined plan consists of the members' contributions plus or minus the investment gains or losses resulting from the members' investment selections. Combined plan members wishing to receive benefits must meet the requirements for both the defined benefit and defined contribution plans. Member-directed participants must have attained the age of 55, have money on deposit in the defined contribution plan and have terminated public service to apply for retirement benefits. The amount available for defined contribution benefits in the member-directed plan consists of the members' contributions, vested employer contributions and investment gains or losses resulting from the members' investment selections. Employer contributions and associated investment earnings vest over a five-year period, at a rate of 20 percent each year. At retirement, members may select one of several distribution options for payment of the vested balance in their individual OPERS accounts. Options include the purchase of a monthly defined benefit annuity from OPERS (which includes joint and survivor options), partial lump-sum payments (subject to limitations), a rollover of the vested account balance to another financial institution, receipt of entire account balance, net of taxes withheld, or a combination of these options.

Beginning in 2022, the combined plan will be consolidated under the traditional pension plan (defined benefit plan) and the combined plan will no longer be available for new hires beginning in 2022.

City of Brook Park, Ohio

Notes to the Basic Financial Statements (continued)

For The Year Ended December 31, 2021

Note 11: Defined Benefit Pension Plans (continued)

B. Plan Description – Ohio Public Employees Retirement System (OPERS) (continued)

Funding Policy - The Ohio Revised Code (ORC) provides statutory City for member and employer contributions as follows:

	State and Local
2021 Statutory Maximum Contribution Rates	
Employer	14.0 %
Employee *	10.0 %
2021 Actual Contribution Rates	
Employer:	
Pension **	14.0 %
Post-Employment Health Care Benefits **	0.0
Total Employer	<u>14.0 %</u>
Employee	<u>10.0 %</u>

* Member contributions within combined plan are not used to fund the defined benefit retirement allowance

** These pension and employer health care rates are for the traditional and combined plans. The employer contributions rate for the member-directed plan is allocated 4 percent for health care with remainder going to pension.

The portion of employer contributions used to fund pension benefits is net of postemployment health care benefits. The portion of the employer's contribution allocated to health care was 0% for 2021 for the Traditional and Combined plans. The portion of the employer's contribution allocated to health care was 4% for the Member-Directed plan for 2021. Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll. The City's contractually required contribution were \$708,147 for fiscal year ending December 31, 2021.

C. Plan Description – Ohio Police & Fire Pension Fund (OP&F)

Plan Description - City full-time police and firefighters participate in Ohio Police and Fire Pension Fund (OP&F), a cost-sharing, multiple-employer defined benefit pension plan administered by OP&F. OP&F provides retirement and disability pension benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by the Ohio State Legislature and are codified in Chapter 742 of the Ohio Revised Code. OP&F issues a publicly available financial report that includes financial information and required supplementary information and detailed information about OP&F fiduciary net position. The report may be obtained by visiting the OP&F website at www.op-f.org or by writing to the Ohio Police and Fire Pension Fund, 140 East Town Street, Columbus, Ohio 43215-5164.

Upon attaining a qualifying age with sufficient years of service, a member of OP&F may retire and receive a lifetime monthly pension. OP&F offers four types of service retirement: normal, service commuted, age/service commuted and actuarially reduced. Each type has different eligibility guidelines and is calculated using the member's average annual salary. The following discussion of the pension formula relates to normal service retirement.

City of Brook Park, Ohio

Notes to the Basic Financial Statements (continued)

For The Year Ended December 31, 2021

Note 11: Defined Benefit Pension Plans (continued)

C. Plan Description – Ohio Police & Fire Pension Fund (OP&F) (continued)

For members hired after July 1, 2013, the minimum retirement age is 52 for normal service retirement with at least 25 years of service credit. For members hired on or before July 1, 2013, the minimum retirement age is 48 for normal service retirement with at least 25 years of service credit.

The annual pension benefit for normal service retirement is equal to a percentage of the allowable average annual salary. The percentage equals 2.5 percent for each of the first 20 years of service credit, 2.0 percent for each of the next five years of service credit and 1.5 percent for each year of service credit in excess of 25 years. The maximum pension of 72 percent of the allowable average annual salary is paid after 33 years of service credit. Under normal service retirement, retired members who are at least 55 years old and have been receiving OP&F benefits for at least one year may be eligible for a cost-of-living allowance adjustment. The age 55 provision for receiving a COLA does not apply to those who are receiving a permanent and total disability benefit and statutory survivors. Members participating in the DROP program have separate eligibility requirements related to COLA.

Members retiring under normal service retirement, with less than 15 years of service credit on July 1, 2013, and members whose pension benefit became effective on or after July 1, 2013, will receive a COLA equal to a percentage of the members' base pension benefit where the percentage is the lesser of three percent or the percentage increase in the consumer price index, if any, over the 12 month period that ends on the thirtieth day of September of the immediately preceding year, rounded to the nearest one-tenth of one percent. The COLA amount for a member with at least 15 years of service credit as of July 1, 2013 is equal to 3 percent of their base pension or disability benefit.

Funding Policy - The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

	<u>Police</u>	<u>Firefighters</u>
2021 Statutory Maximum Contribution Rates		
Employer	19.50 %	24.00 %
Employee	12.25 %	12.25 %
2021 Actual Contribution Rates		
Employer:		
Pension	19.00 %	23.50 %
Post-employment Health Care Benefits	0.50	0.50
Total Employer	<u>19.50 %</u>	<u>24.00 %</u>
Employee	12.25 %	12.25 %

Employer contribution rates are expressed as a percentage of covered payroll. The City's contractually required contribution to OP&F was \$1,366,840 for 2021.

City of Brook Park, Ohio

Notes to the Basic Financial Statements (continued)

For The Year Ended December 31, 2021

Note 11: Defined Benefit Pension Plans (continued)

D. Pension Liabilities, Pension Asset, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability/asset for OPERS was measured as of December 31, 2020, and the total pension liability/asset used to calculate the net pension liability/asset was determined by an actuarial valuation as of that date. OP&F's total pension liability was measured as of December 31, 2020, and was determined by rolling forward the total pension liability as of January 1, 2020, to December 31, 2020. The City's proportion of the net pension liability/asset was based on the City's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

	OPERS Traditional Pension Plan	OPERS Combined Pension Plan	OP&F Police	OP&F Fire	Total
Proportion of the Net Pension Liability/Asset Prior Measurement Date	0.038175%	0.019065%	0.1288465%	0.1465975%	
Proportion of the Net Pension Liability/Asset Current Measurement Date	<u>0.035160%</u>	<u>0.019870%</u>	<u>0.1229883%</u>	<u>0.1372845%</u>	
Change in Proportionate Share	<u>-0.003015%</u>	<u>0.000805%</u>	<u>-0.0058582%</u>	<u>-0.0093130%</u>	
Proportionate Share of the Net Pension Liability/(Asset)	\$ 5,206,431	\$ (57,357)	\$ 8,384,223	\$ 9,358,806	\$ 22,892,103
Pension Expense	\$ (358,623)	\$ 1,543	\$ (216,950)	\$ (160,336)	\$ (734,366)

For The Year Ended December 31, 2021

Note 11: Defined Benefit Pension Plans (continued)

D. Pension Liabilities, Pension Asset, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

At December 31, 2021, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	OPERS Traditional	OPERS Combined	OP&F Police	OP&F Fire	Total
Deferred Outflows of Resources					
Differences between expected and actual experience	\$ -	\$ -	\$ 350,489	\$ 391,230	\$ 741,719
Changes of assumptions	-	3,579	140,609	156,951	301,139
Changes in proportion and differences between City contributions and proportionate share of contributions	-	1,945	461,055	414,881	877,881
City contributions subsequent to the measurement date	696,442	11,705	644,273	722,567	2,074,987
Total Deferred Outflows of Resources	<u>\$ 696,442</u>	<u>\$ 17,229</u>	<u>\$ 1,596,426</u>	<u>\$ 1,685,629</u>	<u>\$ 3,995,726</u>
Deferred Inflows of Resources					
Net Difference between projected and actual earnings on pension plan investments	\$ 2,029,316	\$ 8,529	\$ 406,688	\$ 453,965	2,898,498
Differences between expected and actual experience	217,790	10,816	326,621	364,591	919,818
Changes in proportion and differences between City contributions and proportionate share of contributions	472,127	1,529	235,589	180,842	890,087
Total Deferred Inflows of Resources	<u>\$ 2,719,233</u>	<u>\$ 20,874</u>	<u>\$ 968,898</u>	<u>\$ 999,398</u>	<u>\$ 4,708,403</u>

\$2,074,987 reported as deferred outflows of resources related to pension resulting from City's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending December 31, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

	OPERS Traditional	OPERS Combined	OP&F Police	OP&F Fire	Total
Year Ending December 31:					
2022	\$ (1,188,716)	\$ (3,915)	\$18,718	\$61,523	\$ (1,112,390)
2023	(426,532)	(2,419)	230,768	264,338	66,155

2025	(276,767)	(1,895)	14,309	3,098	(261,255)
2026	-	(944)	53,737	24,826	77,619
Thereafter	-	(1,795)	-	-	(1,795)
Total	<u>(\$2,719,233)</u>	<u>(\$15,350)</u>	<u>(\$16,745)</u>	<u>(\$36,336)</u>	<u>\$ (2,787,664)</u>

City of Brook Park, Ohio

Notes to the Basic Financial Statements (continued)

For The Year Ended December 31, 2021

Note 11: Defined Benefit Pension Plans (continued)

E. Actuarial Assumptions - OPERS

Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation. The total pension liability in the December 31, 2020, actuarial valuation was determined using the following actuarial assumptions, applied to all prior periods included in the measurement in accordance with the requirements of GASB 67. Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results, are presented below:

Wage Inflation	3.25 percent
Future Salary Increases, including inflation	3.25 to 10.75 percent including wage inflation
COLA or Ad Hoc COLA	Pre 1/7/2013 retirees; 3 percent, simple Post 1/7/2013 retirees; 0.50 percent, simple through 2021, then 2.15 percent simple
Investment Rate of Return	7.2 percent
Actuarial Cost Method	Individual Entry Age

The total pension asset in the December 31, 2020, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Wage Inflation	3.25 percent
Future Salary Increases, including inflation	3.25 to 8.25 percent including wage inflation
COLA or Ad Hoc COLA	Pre 1/7/2013 retirees; 3 percent, simple Post 1/7/2013 retirees; 0.50 percent, simple through 2021, then 2.15 percent simple
Investment Rate of Return	7.2 percent
Actuarial Cost Method	Individual Entry Age

Pre-retirement mortality rates are based on the RP-2014 Employees mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates are based on the RP-2014 Healthy Annuitant mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates for disabled retirees are based on the RP-2014 Disabled mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Mortality rates for a particular calendar year are determined by applying the MP-2015 mortality improvement scale to all of the previously described tables.

City of Brook Park, Ohio

Notes to the Basic Financial Statements (continued)

For The Year Ended December 31, 2021

Note 11: Defined Benefit Pension Plans (continued)

E. Actuarial Assumptions – OPERS (continued)

The most recent experience study was completed for the five-year period ended December 31, 2015.

The long-term rate of return on defined benefit investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation.

OPERS manages investments in three investment portfolios: the Defined Benefits portfolio, the Health Care portfolio, and the Defined Contribution portfolio. The Defined Benefit portfolio includes the investment assets of the Traditional Pension Plan, the defined benefit component of the Combined Plan, the annuitized accounts of the Member-Directed Plan. Within the Defined Benefit portfolio, contributions into the plans are all recorded at the same time, and benefit payments all occur on the first of the month. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The annual money weighted rate of return expressing investment performance, net of investments expenses and adjusted for the changing amounts actually invested, for the Defined Benefit portfolio was 11.7 percent for 2020.

The allocation of investment assets with the Defined Benefit portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the defined benefit pension plans. The table on the following page displays the Board-approved asset allocation policy for 2020 and the long-term expected real rates of return:

Asset Class	Target Allocation	Weighted Average Long-Term Expected Real Rate of Return (Arithmetic)
Fixed Income	25.00 %	1.32 %
Domestic Equities	21.00	5.64
Real Estate	10.00	5.39
Private Equity	12.00	10.42
International Equities	23.00	7.36
Other investments	9.00	4.75
Total	100.00 %	5.43 %

Discount Rate The discount rate used to measure the total pension liability was 7.2 percent, post-experience study results. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefits payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

City of Brook Park, Ohio

Notes to the Basic Financial Statements (continued)

For The Year Ended December 31, 2021

Note 11: Defined Benefit Pension Plans (continued)

E. Actuarial Assumptions – OPERS (continued)

Sensitivity of the City's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following table presents the City's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.2 percent, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.2 percent) or one-percentage-point higher (8.2 percent) than the current rate:

City's proportionate share of the net pension liability/(asset)	1% Decrease (6.20%)	Current Discount Rate (7.20%)	1% Increase (8.20%)
Traditional Pension Plan	\$9,931,294	\$ 5,206,431	\$1,277,714
Combined Plan	(39,939)	(57,357)	(70,340)

Changes Between Measurement Date and Report Date

Cost-of-living adjustments for OPERS members in 2022 will be 3 percent for all those eligible to receive the annual benefit increase.

F. Actuarial Assumptions – OP&F

OP&F's total pension liability as of December 31, 2020 is based on the results of an actuarial valuation date of January 1, 2020, and rolled-forward using generally accepted actuarial procedures. The total pension liability is determined by OP&F's actuaries in accordance with GASB Statement No. 67, as part of their annual valuation. Actuarial valuations of an ongoing plan involve estimates of reported amounts and assumptions about probability of occurrence of events far into the future. Examples include assumptions about future employment mortality, salary increases, disabilities, retirements and employment terminations. Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future. Assumptions considered were: withdrawal rates, disability retirement, service retirement, DROP elections, mortality, percent married and forms of the payment, DROP interest rate, CPI-based COLA, investment returns, salary increases and payroll growth.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of January 1, 2020, are presented below:

Valuation Date	January 1, 2020, with actuarial liabilities rolled forward to December 31, 2020
Actuarial Cost Method	Entry Age Normal
Investment Rate of Return	8.00 percent
Projected Salary Increases	3.75 percent to 10.5 percent
Payroll Growth	Inflation rate of 2.75 percent plus productivity increase rate of 0.5 percent
Cost of Living Adjustments	3.00 percent simple, 2.2 percent simple for increases based on the lesser of the increase in CPI and 3 percent

City of Brook Park, Ohio

Notes to the Basic Financial Statements (continued)

For The Year Ended December 31, 2021

Note 11: Defined Benefit Pension Plans (continued)

F. Actuarial Assumptions – OP&F (continued)

Mortality for non-disabled participants is based on the RP-2014 Total Employee and Healthy Annuitant Mortality Tables rolled back to 2006, adjusted according to the rates in the following table, and projected with the Buck Modified 2016 Improvement Scale. Rates for surviving beneficiaries are adjusted by 120 percent.

<u>Age</u>	<u>Police</u>	<u>Fire</u>
67 or less	77 %	68 %
68-77	105	87
78 and up	115	120

Mortality for disabled retirees is based on the RP-2014 Disabled Mortality Tables rolled back to 2006, adjusted according to the rates in the following table, and projected with the Buck Modified 2016 Improvement Scale.

<u>Age</u>	<u>Police</u>	<u>Fire</u>
59 or less	35 %	35 %
60-69	60	45
70-79	75	70
80 and up	100	90

The most recent experience study was completed December 31, 2016.

The long-term expected rate of return on pension plan investments was determined using a building-block approach and assumes a time horizon, as defined in the Statement of Investment Policy. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted averaged of the expected real return premiums for each asset class, adding the projected inflation rate and adding the expected return from rebalancing uncorrelated asset classes. Best estimates of the long-term expected geometric real rates of return for each major asset class included in OP&F's target asset allocation as of December 31, 2020 are summarized on the following page:

City of Brook Park, Ohio

Notes to the Basic Financial Statements (continued)

For The Year Ended December 31, 2021

Note 11: Defined Benefit Pension Plans (continued)

F. Actuarial Assumptions – OP&F (continued)

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return **
Domestic Equity	21.00 %	5.40 %
International Equity	14.00	5.80
Core Fixed Income *	23.00	2.70
U.S. Inflation Linked Bonds *	17.00	2.50
High Yield Fixed Income	7.00	4.70
Private Real Estate	12.00	6.40
Private Markets	8.00	8.00
Midstream Energy Infrastructure	5.00	6.60
Private Credit	5.00	5.50
Real Assets	8.00	7.40
Gold	5.00	1.90
Total	125.00 %	

Note: Assumptions are geometric

* levered 2x

** numbers are net of expected inflation

OP&F's Board of Trustees has incorporated the "risk parity" concept into OP&F's asset liability valuation with the goal of reducing equity risk exposure, which reduces overall Total Portfolio risk without sacrificing return, and creating a more risk-balanced portfolio based on their relationship between asset classes and economic environments. From the notional portfolio perspective above, the Total Portfolio may be levered up to 1.25 times due to the application of leverage in certain fixed income asset classes.

Discount Rate The total pension liability was calculated using the discount rate of 8.00 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the longer-term assumed investment rate of return 8.00 percent. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, a long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of the City's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 8.00 percent, as well as what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (7.00 percent), or one percentage point higher (9.00 percent) than the current rate.

	1% Decrease (7.00%)	Current Discount Rate (8.00%)	1% Increase (9.00%)
City's proportionate share of the net pension liability	\$ 24,700,570	\$ 17,743,029	\$ 11,920,271

City of Brook Park, Ohio

Notes to the Basic Financial Statements (continued)

For The Year Ended December 31, 2021

Note 12: Defined Benefit Multiple-Employer OPEB Plan

A. Net OPEB Liability/(Asset)

The net OPEB liability/(asset) reported on the statement of net position represents a liability or asset to employees for OPEB. OPEB is a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. OPEB are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for OPEB is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net OPEB liability/(asset) represents the City's proportionate share of each OPEB plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each OPEB plan's fiduciary net position. The net OPEB liability/(asset) calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting these estimates annually.

Ohio Revised Code limits the City's obligation for this liability to annually required payments. The City cannot control benefit terms or the manner in which OPEB are financed; however, the City does receive the benefit of employees' services in exchange for compensation including OPEB.

GASB 75 assumes that any liability is solely the obligation of the employer, because they benefit from employee services. OPEB contributions come from these employers and health care plan enrollees which pay a portion of the health care costs in the form of a monthly premium. The Ohio revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients. Any change to benefits or funding could significantly affect the net OPEB liability. Resulting adjustments to the net OPEB liability would be effective when the changes are legally enforceable. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

The proportionate share of each plan's unfunded and funded benefits are presented as a long-term *net OPEB liability or Net OPEB asset* on the accrual basis of accounting. Any liability for the contractually-required OPEB contribution outstanding at the end of the year is included in *intergovernmental payable* on both the accrual and modified accrual bases of accounting.

B. Plan Description – Ohio Public Employees Retirement System (OPERS)

Plan Description - The Ohio Public Employees Retirement System (OPERS) administers three separate pension plans: the traditional pension plan, a cost-sharing, multiple-employer defined benefit pension plan; the member-directed plan, a defined contribution plan; and the combined plan, a cost-sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and defined contribution plan. OPERS maintains a cost-sharing, multiple-employer defined benefit post-employment health care trust, which funds multiple health care plans including medical coverage, prescription drug coverage and deposits to a Health Reimbursement Arrangement to qualifying benefit recipients of both the traditional pension and the combined plans. This trust is also used to fund health care for member-directed plan participants, in the form of a Retiree Medical Account (RMA). At retirement or refund, member directed plan participants may be eligible for reimbursement of qualified medical expenses from their vested RMA balance.

City of Brook Park, Ohio

Notes to the Basic Financial Statements (continued)

For The Year Ended December 31, 2021

Note 12: Defined Benefit Multiple Employer OPEB Plan (continued)

B. Plan Description – Ohio Public Employees Retirement System (OPERS)

Effective January 1, 2022, OPERS will discontinue the group plans currently offered to non-Medicare retirees and re-employed retirees. Instead, eligible non-Medicare retirees will select an individual medical plan. OPERS will provide a subsidy or allowance via an HRA allowance to those retirees who meet health care eligibility requirements. Retirees will be able to seek reimbursement for plan premiums and other qualified medical expenses. These changes are reflected in the December 31, 2020, measurement date health care valuation.

In order to qualify for postemployment health care coverage, age and service retirees under the traditional pension and combined plans must have twenty or more years of qualifying Ohio service credit. Health care coverage for disability benefit recipients and qualified survivor benefit recipients is available. The health care coverage provided by OPERS meets the definition of an Other Post Employment Benefit (OPEB) as described in GASB Statement 75. See OPERS' Annual Comprehensive Financial Report referenced below for additional information. The Ohio Revised Code permits, but does not require OPERS to provide health care to its eligible benefit recipients. Authority to establish and amend health care coverage is provided to the Board in Chapter 145 of the Ohio Revised Code.

Disclosures for the health care plan are presented separately in the OPERS financial report. Interested parties may obtain a copy by visiting <https://www.opers.org/financial/reports.shtml>, by writing to OPERS, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling (614) 222-5601 or 800-222-7377.

Funding Policy - The Ohio Revised Code provides the statutory authority requiring public employers to fund postemployment health care through their contributions to OPERS. When funding is approved by OPERS Board of Trustees, a portion of each employer's contribution to OPERS is set aside to fund OPERS health care plans. Beginning in 2018, health care was no longer being funded.

Employer contribution rates are expressed as a percentage of the earnable salary of active members. In 2021, state and local employers contributed at a rate of 14.0 percent of earnable salary and public safety and law enforcement employers contributed at 18.1 percent. These are the maximum employer contribution rates permitted by the Ohio Revised Code. Active member contributions do not fund health care. Each year, the OPERS Board determines the portion of the employer contribution rate that will be set aside to fund health care plans. As recommended by OPERS' actuary, beginning January 1, 2018, OPERS no longer allocated a portion of its employer contributions to health care for the traditional plan and the combined plan. The OPERS Board is also authorized to establish rules for the retiree or their surviving beneficiaries to pay a portion of the health care provided. Payment amounts vary depending on the number of covered dependents and the coverage selected. The employer contribution as a percentage of covered payroll deposited into the RMA for participants in the Member-Directed Plan for 2021 was 4.0 percent.

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll. The City's contractually required contribution was \$0 for 2021.

City of Brook Park, Ohio

Notes to the Basic Financial Statements (continued)

For The Year Ended December 31, 2021

Note 12: Defined Benefit Multiple Employer OPEB Plan (continued)

C. Plan Description – Ohio Police & Fire Pension Fund (OP&F)

Plan Description – The City contributes to the Ohio Police and Fire Pension Fund (OP&F) a cost-sharing, multiple-employer defined post-employment healthcare plan that provides various levels of health care to retired, disabled and beneficiaries, as well as their dependents. On January 1, 2019, OP&F changed the way it supports retiree health care. A stipend-based health care model has replaced the self-insured group health care plan that had been in place. A stipend funded by OP&F is available to these members through a Health Reimbursement Arrangement and can be used to reimburse retirees for qualified health care expenses. As a result of this change, it is expected that the solvency of the Health Care Stabilization Fund (HCSF) will be extended allowing OP&F to provide stipends to eligible participants.

OP&F provides access to postretirement health care coverage for any person who receives or is eligible to receive a monthly service, disability, or statutory survivor benefit, or is a spouse or eligible dependent child of such person. The health care coverage provided by OP&F meets the definition of an Other Post Employment Benefit (OPEB) as described in Government Accounting Standards Board (GASB) Statement No. 75.

The Ohio Revised Code allows, but does not mandate, OP&F to provide OPEB benefits. Authority for the OP&F Board of Trustees to provide health care coverage to eligible participants and to establish and amend benefits is codified in Chapter 742 of the Ohio Revised Code.

OP&F issues a publicly available financial report that includes financial information and required supplementary information for the plan. The report may be obtained by visiting the OP&F website at www.op-f.org or by writing to the Ohio Police and Fire Pension Fund, 140 East Town Street, Columbus, Ohio 43215-5164.

Funding Policy – The Ohio Revised Code provides for contribution requirements of the participating employers and of plan members to the OP&F defined benefit pension plan. Participating employers are required to contribute to the pension plan at rates expressed as percentages of the payroll of active pension plan members, currently 19.5 percent and 24 percent of covered payroll for police and fire employer units, respectively. The Ohio Revised Code states that the employer contribution may not exceed 19.5 percent of covered payroll for police employer units and 24 percent of covered payroll for fire employer units. Active members do not make contributions to the OPEB Plan.

OP&F maintains funds for health care in two separate accounts. There is one account for health care benefits and one account for Medicare Part B reimbursements. A separate health care trust accrual account is maintained for health care benefits under IRS Code Section 115 trust. An Internal Revenue Code 401(h) account is maintained for Medicare Part B reimbursements.

The Board of Trustees is authorized to allocate a portion of the total employer contributions made into the pension plan to the Section 115 trust and the Section 401(h) account as the employer contribution for retiree health care benefits. For 2021, the portion of employer contributions allocated to health care was 0.5 percent of covered payroll. The amount of employer contributions allocated to the health care plan each year is subject to the Trustees' primary responsibility to ensure that pension benefits are adequately funded and is limited by the provisions of Sections 115 and 401(h).

The City's contractually required contribution to OP&F was \$32,329 for 2021.

City of Brook Park, Ohio

Notes to the Basic Financial Statements (continued)

For The Year Ended December 31, 2021

Note 12: Defined Benefit Multiple Employer OPEB Plan (continued)

D. OPEB Liabilities/(Asset), OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

The net OPEB liability/(asset) and total OPEB liability/(asset) for OPERS were determined by an actuarial valuation as of December 31, 2019, rolled forward to the measurement date of December 31, 2020, by incorporating the expected value of health care cost accruals, the actual health care payment, and interest accruals during the year. OP&F's total OPEB liability was measured as of December 31, 2020, and was determined by rolling forward the total OPEB liability as of January 1, 2020, to December 31, 2020. The City's proportion of the net OPEB liability/(asset) was based on the City's share of contributions to the retirement plan relative to the contributions of all participating entities. Following is information related to the proportionate share and OPEB expense:

	OPERS	OP&F	Total
Proportion of the Net OPEB Liability			
Prior Measurement Date	0.036118%	0.275444%	
Proportion of the Net OPEB Liability/Asset			
Current Measurement Date	0.033327%	0.260273%	
Change in Proportionate Share	-0.002791%	-0.015171%	
Proportionate Share of the Net OPEB			
Liability/(Asset)	\$ (593,747)	\$ 2,757,633	\$ 2,163,886
OPEB Expense	\$ (3,849,475)	\$ 310,959	\$ (3,538,516)

At December 31, 2021, the City reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	OPERS	OP&F	Total
Deferred Outflows of Resources			
Changes of assumptions	\$ 291,893	\$ 1,523,441	\$ 1,815,334
Changes in proportion and differences between City contributions and proportionate share of contributions	-	313,394	313,394
City contributions subsequent to the measurement date	-	32,329	32,329
Total Deferred Outflows of Resources	\$ 291,893	\$ 1,869,164	\$ 2,161,057
Deferred Inflows of Resources			
Net difference between projected and actual earnings on OPEB plan investments	\$ 316,237	\$ 102,481	\$ 418,718
Differences between expected and actual experience	535,854	454,862	990,716
Changes of assumptions	962,048	439,619	1,401,667
Changes in proportion and differences between City contributions and proportionate share of contributions	280,347	144,979	425,326
Total Deferred Inflows of Resources	\$ 2,094,486	\$ 1,141,941	\$ 3,236,427

City of Brook Park, Ohio

Notes to the Basic Financial Statements (continued)

For The Year Ended December 31, 2021

Note 12: Defined Benefit Multiple Employer OPEB Plan (continued)

D. OPEB Liabilities, OPEB Asset OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB (Continued)

\$32,329 reported as deferred outflows of resources related to OPEB resulting from City contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense below:

		OPERS	OP&F	Total
Year Ending December 31:				
	2022	\$ (981,785)	\$ 165,491	\$ (816,294)
	2023	(646,124)	189,759	(456,365)
	2024	(137,423)	151,500	14,077
	2025	(37,261)	153,385	116,124
	2026	-	22,888	22,888
	Thereafter	-	11,871	11,871
Total		<u>\$ (1,802,593)</u>	<u>\$ 694,894</u>	<u>\$ (1,107,699)</u>

E. Actuarial Assumptions - OPERS

Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan and include the types of coverage provided at the time of each valuation and the historical pattern of sharing of costs between OPERS and plan members. The total OPEB liability was determined by an actuarial valuation as of December 31, 2019, rolled forward to the measurement date of December 31, 2020. The actuarial valuation used the following actuarial assumptions applied to all prior periods included in the measurement in accordance with the requirements of GASB 74:

Wage Inflation	3.25 percent
Projected Salary Increases, including inflation	3.25 to 10.75 percent including wage inflation
Single Discount Rate:	
Current measurement date	6.00 percent
Prior Measurement date	3.16 percent
Investment Rate of Return	6.00 percent
Municipal Bond Rate:	
Current measurement date	2.00 percent
Prior Measurement date	2.75 percent
Health Care Cost Trend Rate:	
Current measurement date	8.5 percent, initial 3.50 percent, ultimate in 2035
Prior Measurement date	10.5 percent, initial 3.50 percent, ultimate in 2030
Actuarial Cost Method	Individual Entry Age

City of Brook Park, Ohio

Notes to the Basic Financial Statements (continued)

For The Year Ended December 31, 2021

Note 12: Defined Benefit Multiple Employer OPEB Plan (continued)

E. Actuarial Assumptions – OPERS (continued)

Pre-retirement mortality rates are based on the RP-2014 Employees mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates are based on the RP-2014 Healthy Annuitant mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates for disabled retirees are based on the RP-2014 Disabled mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Mortality rates for a particular calendar year are determined by applying the MP-2015 mortality improvement scale to all of the above-described tables.

The most recent experience study was completed for the five-year period ended December 31, 2015.

The long-term expected rate of return on health care investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation.

During 2020, OPERS managed investments in three investment portfolios: the Defined Benefit portfolio, the Health Care portfolio and the Defined Contribution portfolio. The Health Care portfolio includes the assets for health care expenses for the Traditional Pension Plan, Combined Plan and Member-Directed Plan eligible members. Within the Health Care portfolio, contributions into the plans are assumed to be received continuously throughout the year based on the actual payroll payable at the time contributions are made, and health care-related payments are assumed to occur mid-year. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The annual money-weighted rate of return expressing investment performance, net of investment expenses and adjusted for the changing amounts actually invested, for the Health Care portfolio is 10.50 percent for 2020.

The allocation of investment assets with the Health Care portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Assets are managed on a total return basis with a long-term objective of continuing to offer a sustainable health care program for current and future retirees. OPERS' primary goal is to achieve and maintain a fully funded status for the benefits provided through the defined pension plans. Health care is a discretionary benefit. The table below displays the Board-approved asset allocation policy for 2020 and the long-term expected real rates of return:

Asset Class	Target Allocation	Weighted Average Long-Term Expected Real Rate of Return (Arithmetic)
Fixed Income	34.00 %	1.07 %
Domestic Equities	25.00	5.64
Real Estate Investment Trust	7.00	6.48
International Equities	25.00	7.36
Other investments	9.00	4.02
Total	100.00 %	4.43 %

City of Brook Park, Ohio

Notes to the Basic Financial Statements (continued)

For The Year Ended December 31, 2021

Note 12: Defined Benefit Multiple Employer OPEB Plan (continued)

E. Actuarial Assumptions – OPERS (continued)

Discount Rate A single discount rate of 6.00 percent was used to measure the OPEB asset on the measurement date of December 31, 2020. A single discount rate of 3.16 percent was used to measure the OPEB liability on the measurement date of December 31, 2019. Projected benefit payments are required to be discounted to their actuarial present value using a single discount rate that reflects (1) a long-term expected rate of return on OPEB plan investments (to the extent that the health care fiduciary net position is projected to be sufficient to pay benefits), and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate are not met). This single discount rate was based on an expected rate of return on the health care investment portfolio of 2.00 percent and a municipal bond rate of 2.75 percent. The projection of cash flows used to determine this single discount rate assumed that employer contributions will be made at rates equal to the actuarially determined contribution rate. Based on these assumptions, the health care fiduciary net position and future contributions were sufficient to finance health care costs through 2120. As a result, the long-term expected rate of return on health care investments was applied to projected costs through the year 2120, and the municipal bond rate was applied to all health care costs after that date.

Sensitivity of the City's Proportionate Share of the Net OPEB asset to Changes in the Discount Rate The following table presents the City's proportionate share of the net OPEB asset calculated using the single discount rate of 6.00 percent, as well as what the City's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is one-percentage-point lower (5.00 percent) or one-percentage-point higher (7.00 percent) than the current rate:

	1% Decrease (5.00%)	Current Discount Rate (6.00%)	1% Increase (7.00%)
City's proportionate share of the net OPEB asset	\$ (147,639)	\$ (593,747)	\$ (960,484)

Sensitivity of the City's Proportionate Share of the Net OPEB asset to Changes in the Health Care Cost Trend Rate Changes in the health care cost trend rate may also have a significant impact on the net OPEB liability. The following table presents the net OPEB asset calculated using the assumed trend rates, and the expected net OPEB liability if it were calculated using a health care cost trend rate that is 1.0 percent lower or 1.0 percent higher than the current rate.

Retiree health care valuations use a health care cost-trend assumption that changes over several years built into the assumption. The near-term rates reflect increases in the current cost of health care; the trend starting in 2021 is 8.50 percent. If this trend continues for future years, the projection indicates that years from now virtually all expenditures will be for health care. A more reasonable alternative is that in the not-too-distant future, the health plan cost trend will decrease to a level at, or near, wage inflation. On this basis, the actuaries project premium rate increases will continue to exceed wage inflation for approximately the next decade, but by less each year, until leveling off at an ultimate rate, assumed to be 3.50 percent in the most recent valuation.

City of Brook Park, Ohio

Notes to the Basic Financial Statements (continued)

For The Year Ended December 31, 2021

Note 12: Defined Benefit Multiple Employer OPEB Plan (continued)

E. Actuarial Assumptions – OPERS (continued)

	1% Decrease	Current Health Care Cost Trend Rate Assumption	1% Increase
City's proportionate share of the net OPEB asset	\$ (608,218)	\$ (593,747)	\$ (577,557)

F. Actuarial Assumptions – OP&F

OP&F's total OPEB liability as of December 31, 2020, is based on the results of an actuarial valuation date of January 1, 2020, and rolled-forward using generally accepted actuarial procedures. The total OPEB liability is determined by OP&F's actuaries in accordance with GASB Statement No. 74, as part of their annual valuation. Actuarial valuations of an ongoing plan involve estimates of reported amounts and assumptions about probability of occurrence of events far into the future. Examples include assumptions about future employment mortality, salary increases, disabilities, retirements and employment terminations. Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results, are presented below.

Valuation Date	January 1, 2020, with actuarial liabilities rolled forward to December 31, 2020
Actuarial Cost Method	Entry Age Normal
Investment Rate of Return	8.0 percent
Projected Salary Increases	3.75 percent to 10.5 percent
Payroll Growth	Inflation rate of 2.75 percent plus productivity increase rate of 0.5 percent
Single discount rate:	
Current measurement date	2.96 percent
Prior measurement date	3.56 percent
Cost of Living Adjustments	3.00 percent simple; 2.2 percent simple for increased based on the lesser of the increase in CPI and 3 percent

City of Brook Park, Ohio

Notes to the Basic Financial Statements (continued)

For The Year Ended December 31, 2021

Note 12: Defined Benefit Multiple Employer OPEB Plan (continued)

F. Actuarial Assumptions – OP&F (continued)

Mortality for non-disabled participants is based on the RP-2014 Total Employee and Healthy Annuitant Mortality Tables rolled back to 2006, adjusted according to the rates in the following table, and projected with the Buck Modified 2016 Improvement Scale. Rates for surviving beneficiaries are adjusted by 120 percent.

Age	Police	Fire
67 or less	77 %	68 %
68-77	105	87
78 and up	115	120

Mortality for disabled retirees is based on the RP-2014 Disabled Mortality Tables rolled back to 2006, adjusted according to the rates in the following table, and projected with the Buck Modified 2016 Improvement Scale.

Age	Police	Fire
59 or less	35 %	35 %
60-69	60	45
70-79	75	70
80 and up	100	90

The most recent experience study was completed for the five-year period ended December 31, 2016.

The long-term expected rate of return on OPEB plan investments was determined using a building-block approach and assumes a time horizon, as defined in the Statement of Investment Policy. A forecasted rate of inflation serves as the baseline for the return expected. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted averaged of the expected real return premiums for each asset class, adding the projected inflation rate and adding the expected return from rebalancing uncorrelated asset classes. Best estimates of the long-term expected geometric real rates of return for each major asset class included in OP&F's target asset allocation as of December 31, 2020, are summarized as follows:

Asset Class	Target Allocation	Long-term Expected Real Rate of Return *
Domestic Equity	21.00 %	5.40 %
Non-US Equity	14.00	5.80
Core Fixed Income *	23.00	2.70
U.S. Inflation Linked Bonds *	17.00	2.50
High Yield Fixed Income	7.00	4.70
Private Real Estate	12.00	6.40
Private Markets	8.00	8.00
Midstream Energy Infrastructure	5.00	6.60
Private Credit	5.00	5.50
Real Assets	8.00	7.40
Gold	5.00	1.90
Total	125.00 %	

Note: Assumptions are geometric

* levered 2x

City of Brook Park, Ohio

Notes to the Basic Financial Statements (continued)

For The Year Ended December 31, 2021

Note 12: Defined Benefit Multiple Employer OPEB Plan (continued)

F. Actuarial Assumptions – OP&F (continued)

OP&F's Board of Trustees has incorporated the risk parity concept into OP&F's asset liability valuation with the goal of reducing equity risk exposure, which reduces overall Total Portfolio risk without sacrificing return, and creating a more risk-balanced portfolio based on the relationship between asset classes and economic environments. From the notional portfolio perspective above, the Total Portfolio may be levered up to 1.25 times due to the application of leverage in certain fixed income asset classes in core fixed income and U.S. inflation linked bonds and the implementation approach for gold.

Discount Rate The total OPEB liability was calculated using the discount rate of 2.96 percent. The projection of cash flows used to determine the discount rate assumed the contribution from employers and from members would be computed based on contribution requirements as stipulated by state statute. Projected inflows from investment earnings were calculated using the longer-term assumed investment rate of return 8 percent. Based on those assumptions, OP&F's fiduciary net position was projected to not be able to make all future benefit payments of current plan members. Therefore, a municipal bond rate of 2.12 percent at December 31, 2020 and 2.75 percent at December 31, 2019, was blended with the long-term rate of 8 percent, which resulted in a blended discount rate of 2.96 percent. The municipal bond rate was determined using the S&P Municipal Bond 20 Year High Grade Rate Index. The OPEB plan's fiduciary net position was projected to be available to make all projected OPEB payments until 2037. The long-term expected rate of return on health care investments was applied to projected costs through 2037, and the municipal bond rate was applied to all health care costs after that date.

Sensitivity of the City's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate

Net OPEB liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net OPEB liability calculated using the discount rate of 2.96 percent, as well as what the net OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (1.96 percent), or one percentage point higher (3.96 percent) than the current rate.

	1% Decrease (1.96%)	Current Discount Rate (2.96%)	1% Increase (3.96%)
City's proportionate share of the net OPEB liability	\$ 3,438,610	\$ 2,757,633	\$ 2,195,906

Sensitivity of the City's Proportionate Share of the Net OPEB Liability to Changes in the Health Care Cost Trend Rate

Net OPEB liability is sensitive to changes in the health care cost trend rate because it is based on a medical benefit that is a flat dollar amount.

City of Brook Park, Ohio

Notes to the Basic Financial Statements (continued)

For The Year Ended December 31, 2021

Note 13: Defined Benefit Single Employer OPEB Plan

A. Net OPEB Liability

The net OPEB liability reported on the statement of net position represents a liability to employees for OPEB. OPEB is a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. OPEB are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for OPEB is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net OPEB liability represents the actuarial present value of projected benefit payments attributable to past periods of service. The net OPEB liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting these estimates annually.

The City has control over the benefit terms through Council approved ordinances and is financed through the City's General Fund; however, the City received the benefits of retiree's services for the required number of years and the retirees have reached the eligible age that requires the City to provide this OPEB.

GASB 75 assumes the liability is solely the obligation of the employer, because they benefit from employee services. OPEB contributions comes solely and directly from the City for enrollee's health care reimbursements and life insurance premiums are paid directly to the insurer on behalf of the cover retiree. Any change to benefits or funding could significantly affect the net OPEB liability. Resulting adjustments to the net OPEB liability would be effective when the changes are legally enforceable.

B. Plan Description

The City provides post-employment health care and life insurance benefits (OPEB) for retired employees through a single-employer defined benefit plan. The benefits, benefit levels, employee contributions and employer contributions are governed by the City and can be amended by the City through council-approved ordinance. The activity of the plan is reported in the City's General Fund as part of the general government expenditure function.

C. Benefits Provided

The City provides post-employment health care and life insurance benefits (OPEB) to its retirees. In order to be eligible for the benefit, a retired employee or surviving spouse must be at least age 65 plus 10 consecutive years of service prior to retirement. In addition, a retired employee/surviving spouse must be enrolled in Medicare Part B to be eligible for the benefit.

Post-employment benefits include reimbursement of costs associated with health care coverage up to \$1,200 per year and a life insurance of \$5,000 which the City provides the premium payment. Dependents of eligible retirees will continue to receive the post-employment benefits at the time of the retiree's death.

City of Brook Park, Ohio

Notes to the Basic Financial Statements (continued)

For The Year Ended December 31, 2021

Note 13: Defined Benefit Single Employer OPEB Plan (continued)

C. Benefits Provided (continued)

As of January 1, 2019, the City had 206 participants (most recent information available). Of that number, 129 were active employees and 77 were retirees and dependents that were currently receiving the post-employment mentioned on the previous page. The valuation excluded 61 retirees from the liability as they did not receive any benefits in 2016 through 2019. It is assumed that they will not be rejoining the plan in the future.

D. Funding Policy

The City's annual contributions to the plan are approved by council through ordinance 10064-2016. The City's contractually required contributions were \$91,261 for 2021. The plan does not require matching contributions from employees during their period of employment.

E. OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

The net OPEB liability and total OPEB liability was determined by an actuarial valuation as of January 1, 2020, rolled forward to the measurement date of December 31, 2020, by incorporating the expected value of the OPEB's cost accruals, the actual payment, and interest accruals during the year. The City's net OPEB liability was based on the aforementioned actuarial valuation. Following is information related to the Net OPEB Liability and OPEB expense:

Proportionate Share of the Net OPEB Liability	\$	2,177,379
OPEB Expense	\$	156,281

At December 31, 2021, the City reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	<u>OPERS</u>
Deferred Outflows of Resources	
Differences between expected and actual experience	\$ 56,720
Changes of assumptions	366,918
City contributions subsequent to the measurement date	<u>91,261</u>
Total Deferred Outflows of Resources	<u><u>\$ 514,899</u></u>
Deferred Inflows of Resources	
Differences between expected and actual experience	\$ 132,337
Total Deferred Inflows of Resources	<u><u>\$ 132,337</u></u>

\$91,261 reported as deferred outflows of resources related to OPEB resulting from City contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in 2022.

City of Brook Park, Ohio

Notes to the Basic Financial Statements (continued)

For The Year Ended December 31, 2021

Note 13: Defined Benefit Single Employer OPEB Plan (continued)

E. OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB (continued)

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

		OPERS	
Year Ending December 31:			
	2022	\$	52,861
	2023		52,861
	2024		52,861
	2025		52,861
	2026		52,861
	Thereafter		26,996
Total		\$	291,301

F. Actuarial Assumptions

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the ARC's of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan and include the types of coverage provided at the time of each valuation and the historical pattern of sharing of costs between the OPEB and plan members. The actuarial valuation used the following actuarial assumptions applied to all prior periods included in the measurement in accordance with the requirements of GASB 74:

Annual Wage Increases	3.50 percent
Single Discount Rate	1.93 percent
Municipal Bond Rate	1.93 percent
Actuarial Value of Assets	Market Value
Funding Policy	Pay-as-you-go
Actuarial Cost Method	Entry Age Normal 20% of pay
Annual per Capita Claims Cost Medical	\$1,200 - for 2017 and beyond
Medical	Medicare Part B Reimbursement

Annual Per-Capita Claims Cost	Year	Coverage	Total Premium
Life Insurance	2020	\$ 5,000	\$ 20.46

City of Brook Park, Ohio

Notes to the Basic Financial Statements (continued)

For The Year Ended December 31, 2021

Note 13: Defined Benefit Single Employer OPEB Plan (continued)

Mortality for participants is based on the SOA RP-2014 Blue Collar Mortality with Scale MP-2020. No disabilities are assumed for the active population. For retirees currently disabled, no recovery from disability is assumed.

For future police and fire retirees, participation assumes that 90% of future retirees will elect to receive Medicare Part B Supplement and the reimbursement. 100% of future retirees will elect for life insurance.

For future City retirees, participation assumes that 90% of future retirees will elect to receive Medicare Part B Supplement and the reimbursement. 100% of future retirees will elect for life insurance.

For current retirees, the actual elections as reported are used. It is assumed current retirees will continue coverage until death. Spouses are assumed to be 3 years younger than the member.

G. Discount Rate

The total OPEB liability was calculated using the discount rate of 1.93 percent. Since the plan is funded by a “pay-as-you-go” system, the 20-year AA rated municipal bond rate was used as both the discount and investment rate of return. This rate was determined from <https://www.spglobal.com/spdji/en/indices/fixed-income/sp-municipal-bond-20-year-high-grade-rate-index/#overview> as of December 31, 2020.

H. Changes in the Net OPEB Liability

The following tables represent the changes in the Net OPEB Liability during the measurement period based on actuarial valuation date of January 1, 2020:

Reconciliation of Total OPEB Liability

1/1/20 Net OPEB Liability	\$ 1,729,337
Service Cost	40,546
Interest Cost	62,874
Contributions	(85,917)
New Inflow - experience	3,862
New Outflow - assumptions	426,677
12/31/20 Net OPEB Liability	<u>\$ 2,177,379</u>

Reconciliation of Fiduciary Net Position

1/1/20 Fiduciary Net Position	\$ -
Employer Contributions	(85,917)
Total Benefits paid	85,917
12/31/20 Fiduciary Net Position	<u>\$ -</u>

Net OPEB Liability

Total OPEB Liability	\$ 2,177,379
Fiduciary Net Position	-
Net OPEB Liability	<u>\$ 2,177,379</u>

Due to the plan using the pay-as-you-go method, there will be no Fiduciary Net Position.

City of Brook Park, Ohio

Notes to the Basic Financial Statements (continued)

For The Year Ended December 31, 2021

Note 14: Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees and natural disasters. During the year, the City contracted with Wichert Insurance Services, Inc. to manage its insurance coverage. The City's insurance carrier for all coverages is Selective Insurance Co. of America. The coverage limits, on December 31, 2021, per occurrence for all types of coverage are as follows:

<u>Type of Coverage</u>	<u>Coverage</u>
Property:	
Blanket building and contents	\$ 63,059,382
Business income and extra expense	Actual Loss Sustained-12 mos.
General liability:	
Commercial general liability, which includes:	2,000,000
Employee benefits	1,000,000
Employers liability (Ohio stop gap)	1,000,000
Automotive liability	1,000,000
Excess liability:	
Umbrella, which includes:	10,000,000
All underlying liabilities	
Public officials and law enforcement	
Other types of coverages:	
Contractors equipment	1,190,325
EDP equipment	356,585
Employee dishonesty	1,000,000
Valuable papers	100,000
Accounts receivable	100,000
Law enforcement	1,000,000
Public Officials	1,000,000
Flood	Each Occurrence 5,000,000 Aggregate 5,000,000
Earthquake	Each Occurrence 5,000,000 Aggregate 5,000,000

There were no reductions in insurance coverage from the previous year, nor have settlements exceeded insurance coverage in any of the prior three fiscal years.

During 2017, the City switched from self-funded program for health insurance to a shared-funding plan provided by a commercial insurance carrier. The City will pay up to a predetermined amount towards each employee's health care costs after employee's health care costs after employees meet their deductible. Once this "funding corridor" has been met, the insurance company will pay the employee's remaining annual health care costs. As of December 31, 2021, there are no known claims payable to the City for the past two years.

The State of Ohio provides workers' compensation coverage. The City pays the State Workers' Compensation System a premium based on a rate per \$100 of salaries. This rate is calculated based on accident history and administrative costs.

City of Brook Park, Ohio

Notes to the Basic Financial Statements (continued)

For The Year Ended December 31, 2021

Note 15: Construction and Other Significant Commitments

At December 31, 2021, the City's significant contractual construction commitments consisted of:

Project	Amount	Paid	on Contract
Delores Blvd Reconstruction	\$ 852,064	\$ 727,057	\$ 125,007
Sylvia Drive Reconstruction	783,382	723,558	59,824
Middlebrook Blvd Reconstruction	850,000	617,052	232,948
Total	<u>\$ 2,485,446</u>	<u>\$ 2,067,667</u>	<u>\$ 417,779</u>

The City utilizes encumbrance accounting as part of its budgetary controls. Encumbrances outstanding at year-end are components of fund balance for subsequent year expenditures and may be reported as part of restricted, committed, or assigned classifications of fund balance. As of December 31, 2021, the City's commitments for encumbrances in the governmental funds were as follows:

	Encumbrances Outstanding
Major Funds:	
General	\$ 358,191
Economic Development	\$ 153,790
Capital Improvements	1,618,062
Nonmajor Funds:	
Special Revenue Funds	744,468
Total	<u>\$ 2,874,511</u>

Note 16: Interfund Transactions

A. Transfers

Interfund transfers for the year ended December 31, 2021, consisted of the following:

Transfer To	Transfer From			Total
	General Fund	Capital Improvements Fund	Nonmajor Governmental Funds	
General Fund	\$ -	\$ -	\$ 64,130	\$ 64,130
Economic Development	3,000,000	-	-	3,000,000
Capital Improvements Fund	1,250,000	-	-	1,250,000
Other Governmental Funds	1,347,453	916,414	-	2,263,867
Total	<u>\$ 5,597,453</u>	<u>\$ 916,414</u>	<u>\$ 64,130</u>	<u>\$ 6,577,997</u>

Transfers are used to move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations; to segregate money for anticipated capital projects; to provide additional resources for current operations or debt service; and to return money to the fund from which it was originally provided once a project is completed.

City of Brook Park, Ohio

Notes to the Basic Financial Statements (continued)

For The Year Ended December 31, 2021

Note 16: Interfund Transactions

A. Transfers

The General Fund transferred \$3,000,000 to the Economic Development Fund to cover future costs of the fund. Also, the General Fund transferred \$520,000 and \$600,000 to the Police and Fire Pension Funds, respectively, in order to cover the City's pension costs for OP&F. In addition, the General Fund transferred 1,250,000 to capital projects fund for 2021 street program. The Debt Service fund received \$227,453 and \$790,156 from the General Fund and Capital Improvements Fund, respectively, to cover the costs of debt retirement. The Capital Improvement Fund transferred \$126,258 to the CDBG fund to cover costs of an ambulance purchase partially covered by a grant. The Cares Act fund transferred \$64,130 to General Fund to reimburse expenses.

B. Interfund Balances

Interfund balances for the year ended December 31, 2021, consisted of the following:

<u>Receivable Fund</u>	<u>Payable Fund</u>	<u>Amount</u>
General Fund	CDBG	150,000
		<u>150,000</u>

The primary purpose of the interfund balances is to cover costs in specific funds where anticipated revenues were not received. These interfund balances will be repaid once the anticipated revenues are received. All interfund balances are expected to be repaid within one year.

Note 17: Contingencies/Pending Litigation

A. Grants

The City received financial assistance from Federal and State agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with the terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the City at December 31, 2021.

B. Litigation

There are claims and lawsuits that are pending against the City. The amount of the liability from these claims and lawsuits, if any, cannot be reasonably estimated at this time. However, in the opinion of management, any such claims and lawsuits will not have a material adverse effect on the overall financial position of the City at December 31, 2021.

City of Brook Park, Ohio

Notes to the Basic Financial Statements (continued)

For The Year Ended December 31, 2021

Note 18: Fund Balances

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the City is bound to observe constraints imposed upon the use of the resources in the governmental funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented below:

Fund Balances	General Fund	Economic Development	American Rescue Plan	Capital Improvements Fund	Other Governmental Funds	Total
<i>Nonspendable</i>						
Prepaid Items	\$ 365,899	\$ -	\$ -	\$ -	\$ -	\$ 365,899
Materials and Supplies Inventory	145,008	-	-	-	-	145,008

City of Brook Park, Ohio

Notes to the Basic Financial Statements (continued)

For The Year Ended December 31, 2021

Note 19: Tax Abatement Disclosure

The City of Brook Park provides tax incentive programs through Ohio Revised Code Chapter 3735.65-70 and/or Chapter 5709 (Community Re-Investment Act (CRA)) and through a payroll tax rebate program. The city established its CRA and has amended its program twice so that the entire city is covered by the CRA.

The CRA program provides the city with an important economic development tool to stimulate growth and redevelopment in its industrial, commercial and residential bases. The abate program provides a direct incentive property tax exemption for improvements to real estate within the City. Improvements to residential property (not containing more than 2 residential units) valued exceeding \$2,500 are available to receive a 10-year, 100% property tax abatement for the increase in assessed value resulting from the improvement. Remodeling in excess of \$5,000 to residential multi-family, commercial & industrial properties are eligible to receive a 12-year 100% abatement from the increase in assessed value resulting from the improvement. Likewise, construction of new commercial or industrial improvements (excluding properties primarily used in retail sales) are eligible for a 100%, fifteen (15) year abatement of real property taxes arising from the increase in assessed value resulting from the improvement. All CRA property tax abatements are reported to the State of Ohio on an annual basis.

The amount of tax abated for tax year 2020/collection year 2021 is \$25,003 at December 31, 2021.

In the past the city has offered an income tax rebate (up to 50% for a defined period (up to five (5) years)) to entities with established multi-million dollar payrolls who agree to maintain established and negotiated payrolls for a defined period of years (7 years or longer). Like rebates have been offered to businesses with multi-million dollar payrolls in order to keep the business from relocating out of city due to a competitive rebate offer or to entice a business to relocate to our City by matching an income tax rebate offered by a competitive jurisdiction. No income tax rebates have been authorized by the City in the past four (4) years.

Note 20: COVID-19

The United States and the State of Ohio declared a state of emergency in March 2020 due to the COVID-19 pandemic. The financial impact of COVID-19 and the continuing emergency measures will impact subsequent periods of the City. The investments of the pension and other employee benefit plan in which the City participates fluctuate with market conditions, and due to market volatility, the amounts of gains or losses that will be recognized in subsequent periods, if any, cannot be determined. In addition, the impact on the City's future operating costs, revenues, and any recovery from emergency funding, either federal or state, cannot be estimated.

Notes to the Required Supplementary Information For the Year Ended December 31, 2021

OHIO PUBLIC EMPLOYEES RETIREMENT SYSTEM (OPERS)

Net Pension Liability

Changes in benefit terms: There were no changes in benefit terms from the amounts reported for 2014-2021.

Changes in assumptions: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for 2014-2016 and 2018. For 2017, the following changes of assumptions affected the total pension liability since the prior measurement date: (a) the expected investment return was reduced from 8.00% to 7.50%, (b) the expected long-term average wage inflation rate was reduced from 3.75% to 3.25%, (c) the expected long-term average price inflation rate was reduced from 3.00% to 2.50%, (d) Rates of withdrawal, retirement and disability were updated to reflect recent experience, (e) mortality rates were updated to the RP-2014 Health Annuitant Mortality Table, adjusted for mortality improvement back to the observant period base year of 2006 and then established the base year as 2015 (f) mortality rates used in evaluating disability allowances were updated to the RP-2014 Disabled Mortality tables, adjusted for mortality improvement back to the observation base year of 2006 and a base year of 2015 for males and 2010 for females (g) Mortality rates for a particular calendar year for both healthy and disabled retiree mortality tables are determined by applying the MP-2015 mortality improvement scale to the above described tables. For 2019, the following changes of assumptions affected the total pension liability since the prior measurement date: (a) the expected investment return was reduced from 7.50% to 7.20%. For 2020, the following changes of assumptions affected the total pension liability since the prior measurement date: (a) the cost-of-living adjustments for post-1/7/2013 retirees were reduced from 3.00% simple through 2018 to 1.40% simple through 2020, then 2.15% simple. For 2021, the following changes of assumptions affected the total pension liability since the prior measurement date: (a) the cost-of-living adjustments for post-1/7/2013 retirees were reduced from 1.40% simple through 2020 to 0.50% simple through 2021, then 2.15% simple.

Net OPEB Liability

Changes in benefit terms: There were no changes in benefit terms from the amounts reported for 2018-2021.

Changes in assumptions: For 2018, the single discount rate changed from 4.23% to 3.85%. For 2019, the following changes of assumptions affected the total OPEB liability since the prior measurement date: (a) the expected investment return was reduced from 6.50% to 6.00% (b) In January 2019, the Board adopted changes to health care coverage for Medicare and pre-Medicare retirees. It will include discontinuing the PPO plan for pre-Medicare retirees and replacing it with a monthly allowance to help participants pay for a health care plan of their choosing. The base allowance for Medicare eligible retirees will be reduced. The specific effect of these changes on the net OPEB liability and OPEB expense are unknown at this time (c) the single discount rate changed from 3.85% to 3.96%. For 2020, the following changes of assumptions affected the total OPEB liability since the prior measurement date: (a) the single discount rate changed from 3.96% to 3.16%. For 2021, the following changes of assumptions affected the total OPEB liability since the prior measurement date: (a) the single discount rate changed from 3.16% to 6.00% (b) the municipal bond rate changed from 2.75% to 2.00% (c) the health care cost trend rate changed from 10.50% initial and 3.50% ultimate in 2030 to 8.50% initial and 3.50% ultimate in 2035.

City of Brook Park, Ohio

Notes to the Required Supplementary Information For the Year Ended December 31, 2021

OHIO POLICE AND FIRE (OP&F) PENSION FUND

Net Pension Liability

Changes in benefit terms: There were no changes in benefit terms from the amounts reported for 2014-2021.

Changes in assumptions: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for 2014-2017. For 2018, the following changes of assumptions affected the total pension liability since the prior measurement date: (a) the investment rate of return was reduced from 8.25 percent to 8.00 percent (b) the projected salary increases was reduced from 4.25% to 3.75% (c) the payroll increases was reduced from 3.75% to 3.25% (d) the inflation assumptions was reduced from 3.25% to 2.75% (e) the cost of living adjustments was reduced from 2.60% to 2.20% (f) rates of withdrawal, disability and service retirement were updated to reflect recent experience (g) mortality rates were updated to the RP-2014 Total Employee and Health Annuitant Mortality Table, adjusted for mortality improvement back to the observant period base year of 2006 and then established the base year as 2016 (h) mortality rates used in evaluating disability allowances were updated to the RP-2014 Disabled Mortality tables, adjusted for mortality improvement back to the observation base year of 2006 and a base year of 2016. For 2019-2021, there have been no OP&F pension plan amendments adopted or changes in assumptions between the measurement date and the report date that would have impacted the actuarial valuation of the pension plan as of the measurement date.

Net OPEB Liability

Changes in benefit terms: There were no changes in benefit terms from the amounts reported for 2018 and 2020-2021. For 2019, see below regarding changes to stipend-based model.

Changes in assumptions: For 2018, the single discount rate changed from 3.79 percent to 3.24 percent. For 2019, the changes of assumptions were: (a) beginning January 1, 2019 OP&F changed its retiree health care model and the current self-insured health care plan is no longer offered. In its place will be a stipend-based health care model. OP&F has contracted with a vendor who will assist eligible retirees in choosing health care plans from their marketplace (both Medicare-eligible and pre-Medicare populations). A stipend funded by OP&F will be placed in individual Health Reimbursement Accounts that retirees will use to be reimbursed for health care expenses. As a result of changing from the current health care model to the stipend-based health care model, management expects that it will be able to provide stipends to eligible participants for the next 15 years (b) beginning in 2020 the Board approved a change to the Deferred Retirement Option Plan. The minimum interest rate accruing will be 2.5% (c) the single discount rate changed from 3.24 percent to 4.66 percent. For 2020, the single discount rate changed from 4.66 to 3.56. For 2021, the single discount rate changed from 3.56 to 2.96.

Combining Statements

City of Brook Park, Ohio

Fund Descriptions

Non-Major Governmental Funds

For The Year Ended December 31, 2021

Non-Major Special Revenue Funds

Street Maintenance Fund

The Street Maintenance Fund accounts for ninety-two and one half percent (92.5%) of the state gasoline tax and motor vehicle registration fees restricted for street maintenance and repair.

State Highway Fund

The State Highway Fund accounts for seven and one half percent (7.5%) of the state gasoline tax and motor vehicle registration fees restricted for maintenance and repair of state highways within the City.

Permissive Tax Fund

The Permissive Tax Fund accounts for additional motor vehicle registration fees restricted for maintenance and repair of streets within the City.

Brook Park Road Corridor Fund

The Brook Park Road Corridor Fund accounts for funds received from the City of Cleveland as a result of a legal settlement committed for attorney fees, land acquisition, grants or loans to Brook Park Road businesses and other expenditures related to the overall improvement of the corridor.

CDBG Fund

The CDBG Fund accounts for funds received from the Community Development Block Grant passed through from the Cuyahoga County. The grant funds were utilized for the W. 147th/Elm Street road project.

Special Recreation Fund

The Special Recreation Fund accounts for operations of City sponsored recreation programs committed by participation fees and facility rentals.

Law Enforcement Fund

The Law Enforcement Fund accounts for confiscated monies from criminal offenses and restricted, by state statute, for expenditures that would enhance the operation of the police department.

DWI Enforcement and Education Fund

The DWI Enforcement and Education Fund accounts for fine monies used by the law enforcement agency to pay costs related to DWI enforcement and for educating the public about laws governing the operation of a motor vehicle under the influence of alcohol.

Federal Forfeiture Fund

The Federal Forfeiture Fund accounts for confiscated monies from a Federal task force and restricted for expenditures that would enhance the operation of the police department.

Community Diversion Fund

The Community Diversion Fund accounts for reimbursements received from Cuyahoga County Juvenile Court to promote and develop a community diversion program to address juvenile misdemeanor and status offenders.

Continuing Training Program Fund

The Continuing Training Program Fund accounts for restricted funds to provide for the training of the City's safety forces.

City of Brook Park, Ohio

Fund Descriptions

Non-Major Governmental Funds

For The Year Ended December 31, 2021

Non-Major Special Revenue Funds (continued)

FEMA Fund

The FEMA Fund accounts for restricted funds that are used to reimburse costs incurred as a result of a natural disaster.

B.P. Coronavirus Relief Fund

The B.P. Coronavirus Relief fund accounts for the grant proceeds provided to the local governments who have been financially impacted by the outbreak of COVID-19. The Coronavirus Aid, Relief, and Economic Security Act (CARES Act) funding may only be used to cover costs that are necessary expenditures incurred in response to the COVID-19 outbreak.

Police Pension Fund

The Police Pension Fund accounts for the accumulation of property taxes levied for the payment of current employer's pension contributions.

Fire Pension Fund

The Fire Pension Fund accounts for the accumulation of property taxes levied for the payment of current employer's pension contributions.

Southwest General Health Center Fund

The Southwest General Health Center Fund accounts for a special property tax levied to provide resources to support a health care facility.

Cash Bonds Held Fund

The Cash Bonds Held Fund accounts for deposits to insure the proper repair of street openings.

Retiree Accrued Benefits Fund

The Retiree Accrued Benefits Fund accounts for funds allocated to pay for the accrued compensated absences paid out to employees upon retirement. Due to the implementation of GASB Statement No. 54, the fund was combined with the General Fund on the governmental fund financial statements but remained a separate fund in the budgetary schedules because it has a separate legally adopted budget.

Non-Major Debt Service Fund

General Obligation Debt Service Fund

The General Obligation Debt Service Fund accounts for the resources that are used for payment of principal and interest and fiscal charges on general obligation debt and special assessment debt.

STATISTICAL SECTION

City of Brook Park, Ohio

Statistical Section

This part of City's Annual Comprehensive Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

<u>Contents</u>	<u>Page(s)</u>
Financial Trends	
These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.	S2 – S7
Revenue Capacity	
These schedules contain information to help the reader assess the City's most significant local revenue source, the property tax.	S8 - S13
Debt Capacity	
These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.	S14–S17
Economic and Demographic Information	
These schedules offer economic and demographic indicators to help the reader understand the environment within which the City's financial activities take place.	S18-S19
Operating Information	
These schedules contain service data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.	S20-S23

Sources: Unless otherwise noted, the information in these schedules is derived from the Annual Comprehensive Financial Reports for the relevant year.

Real property is reappraised every six years with a State mandated update of the current market value in the third year following each reappraisal.

The assessed value of real property (including public utility real property) is 35 percent of estimated true value. The assessed value of public utility personal property ranges from 25 percent of true value for railroad property to 88 percent for electric transmission and distribution property. General business tangible personal property was assessed in previous years at 25 percent for machinery and equipment and 23 percent for inventories.

(1) State reimbursement of rollback and homestead exemptions is included

Note: The County is aware of the requirement to report delinquent tax collections by levy year rather than by collection year. The County's current computer system tracks levy amounts by either current levy or delinquent levy. Once amounts become part of the delinquent levy, the ability to track information by levy year is lost. The County is looking at options to provide this information in the future.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Members of City Council
City of Brook Park
Brook Park, Ohio

The Honorable Keith Faber
Auditor of State
State of Ohio

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the City of Brook Park, Cuyahoga County, Ohio, (the City) as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated June 24, 2022, wherein we noted the financial impact of COVID-19 and the continuing emergency measures may impact subsequent periods of the City.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the City's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

A handwritten signature in black ink that reads "James G. Zupka, CPA, Inc." The signature is written in a cursive, flowing style.
