Fax: 216-433-1445

Use of Fire Hydrants

- Permission in writing shall be obtained from the City of Brook Park Fire Department and also be approved by the City of Cleveland Division of Water.
- All permits shall be issued subject to the express condition that the permit holder shall indemnify and save the City of Brook Park harmless from all loss or damage that may occur by the lack of care, skill, or attention of the permit holder or anyone in his employ in the making of a connection or in the use of such fire hydrant. The permit holder shall, if any damage is caused to any public fire hydrant or water main in the use thereof, promptly and fully reimburse the City of Brook Park for the full cost and expense of the repairs necessary beyond the amount of his or her deposit if such be inadequate.
- All hydrants used for any purpose shall have reducing couplings attached to the outlets of the hydrant with an independent valve of regulating the supply. The main valve of the hydrant shall be opened fully at the beginning of each work day and remain open until the end of each work day. The hydrant shall be operated only by a proper hydrant wrench.
- Upon the completion of the use of a fire hydrant, the permit holder shall notify the City of Brook Park Fire Department, who shall promptly inspect each fire hydrant used for their condition and damage.
- The City of Brook Park Police Department shall be notified by the hydrant user prior to use if a hose or water stream will affect traffic or the safety on public properties (roads).

I have read and agree to the above listed rules.
